THE BANKSTERS

A Call to Action!

*“The issue which has swept down the
centuries and which will have to be fought
sooner or later is
the People VS. the Banks.”*

— LORD ACTON

AKA JOHN EMERICH EDWARD DALBERG-ACTON,
1ST BARON ACTON
(1834–1902)

LORD CHIEF JUSTICE OF ENGLAND, 1875
ENGLISH CATHOLIC HISTORIAN, POLITICIAN,
AND WRITER.

“Let me tell you why you're here. You're here because you know something. What you know you can't explain, but you feel it. You've felt it your entire life, that there's something wrong with the world. You don't know what it is, but it's there, like a splinter in your mind driving you mad. It is this feeling that has brought you to me. Do you know what I'm talking about?”

— “THE MATRIX” FILM
1999

I am mad as hell. And who am I mad at?

You!

I am mad because a war is being waged against America and you don't seem to care. You're not paying attention.

*Our country is in danger. Our way of life is in jeopardy.
Our Constitution is being trampled; our middle class is being exterminated;
our laws are being broken but no one is being prosecuted.*

And what are you doing about it?

Our money is being inflated, our homes fraudulently foreclosed upon, our pensions extinguished, our elections are being bought, jobs are being shipped to other countries, gas prices, energy prices and food prices are increasing, our fresh water supply and oceans are being poisoned, our forests being cut down...

People are being thrown out of their homes while 20 million housing units are vacant, rotting, being vandalized, and demolished.

Where is all of this leading?

To an increase in suicide, homelessness, unemployment, despair, an increasing wave of crime as people resort to whatever is necessary to survive...

Although you may not personally be affected by any of these events, I promise, your turn will come for this war is annihilating one group after another using the same strategy that Hitler employed in WWII.

“When Hitler attacked the Jews... I was not a Jew, therefore, I was not concerned. When Hitler attacked the Catholics, I was not a Catholic, and therefore, I was not concerned. When Hitler attacked the unions and the industrialists, I was not a member of the unions and I was not concerned. Then, Hitler attacked me and the Protestant church — and there was nobody left to be concerned.”

— PASTOR MARTIN NIEMOLLER
(1892–1984)

CONGRESSIONAL RECORD, OCTOBER 14, 1968,
VOL. 114, P. 31636

*A logical person would look at these unprecedented events and ask **why** they are happening, for these events are not random.*

We, the People are facing a challenge which transcends red states and blue states; it affects every one of us in the United States and the world.

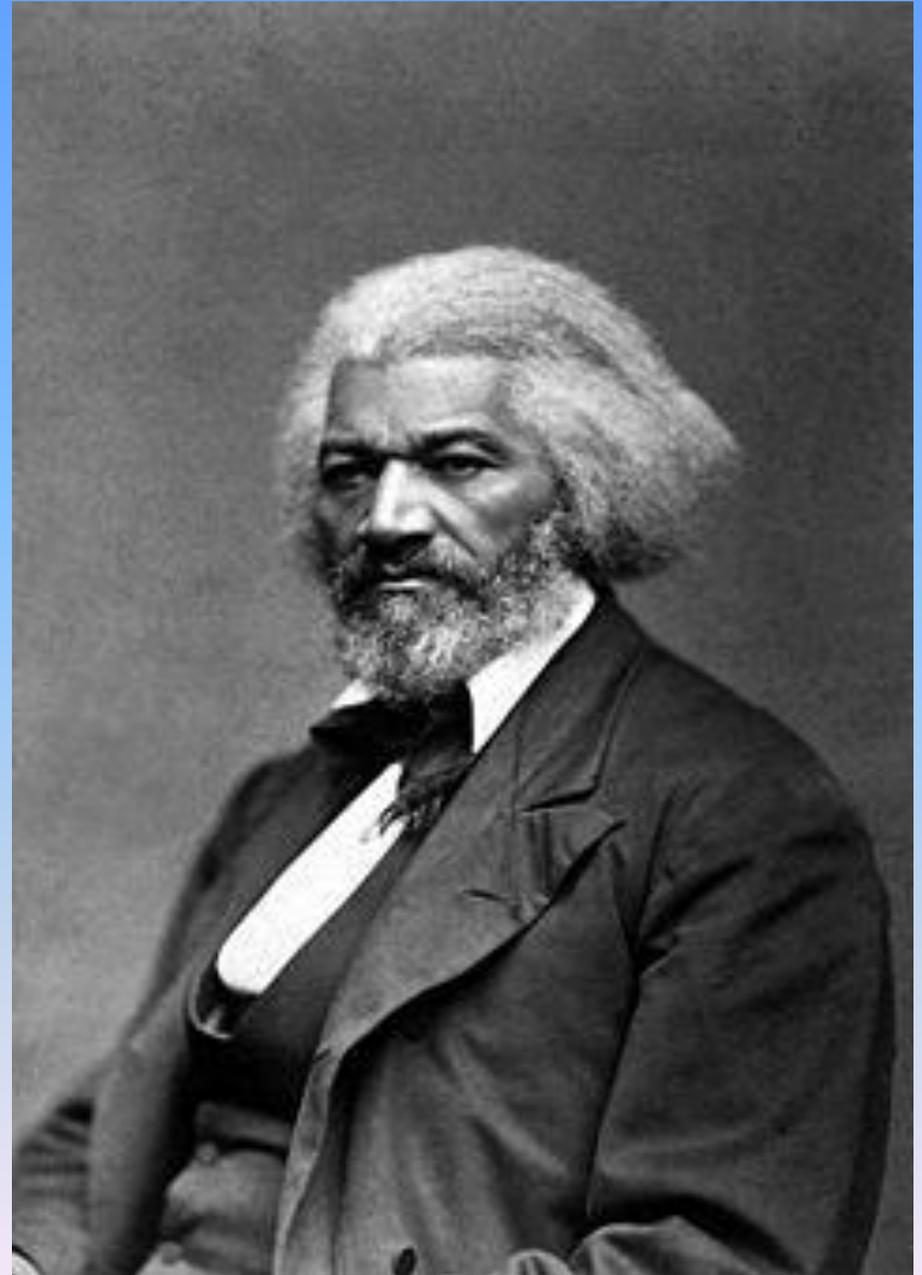

We have become the prey of a hostile power whose weapons are tyranny, poverty, disease and war.

A multi-pronged attack is being waged and the enemy will continue its methodical attack until We, the People wake up and draw the line.

*“Find out just what the people will submit to and you have found out the exact amount of injustice and wrong which will be imposed upon them; and **these will continue until they are resisted with either words or blows, or with both.** The limits of tyrants are prescribed by the endurance of those whom they oppress.”*

This war is being waged subtly and gradually beneath the surface of everyday life because the enemy does not want to prematurely awaken the “sleeping tiger” (you).

The enemy is counting on your ignorance, apathy and silence until its stranglehold is so deeply entrenched, there is no escape.

For a preview of what is now happening behind the scenes in America, the following pamphlet describes the Banksters unfolding agenda in 1892.

“We (the bankers) must proceed with caution and guard every move made, for the lower order of people are already showing signs of restless commotion. Prudence will therefore show a policy of apparently yielding to the popular will until our plans are so far consummated that we can declare our designs without fear of any organized resistance. The Farmers Alliance and Knights of Labor organizations in the United States should be carefully watched by our trusted men, and we must take immediate steps to control these organizations in our interest or disrupt them. At the coming Omaha Convention to be held July 4th (1892), our men must attend and direct its movement, or else there will be set on foot such antagonism to our designs as may require force to overcome. This at the present time would be premature. We are not yet ready for such a crisis. Capital must protect itself in every possible manner through combination (conspiracy) and legislation. The courts must be called to our aid, debts must be collected, bonds and mortgages foreclosed as rapidly as possible. When through the process of the law, the common people have lost their homes, they will be more tractable and easily governed through the influence of the strong arm of the government applied to a central power of imperial wealth under the control of the leading financiers. People without homes will not quarrel with their leaders. History repeats itself in regular cycles. This truth is well known among our principal men who are engaged in forming an imperialism of the world. While they are doing this, the people must be kept in a state of political antagonism. The question of tariff reform must be urged through the organization known as the Democratic Party, and the question of protection with the reciprocity must be forced to view through the Republican Party. By thus dividing voters, we can get them to expand their energies in fighting over questions of no importance to us, except as teachers to the common herd. Thus, by discrete action, we can secure all that has been so generously planned and successfully accomplished.”

— 1892 PAMPHLET CITED IN A 1924 US BANKER’S ASSOCIATION
MAGAZINE

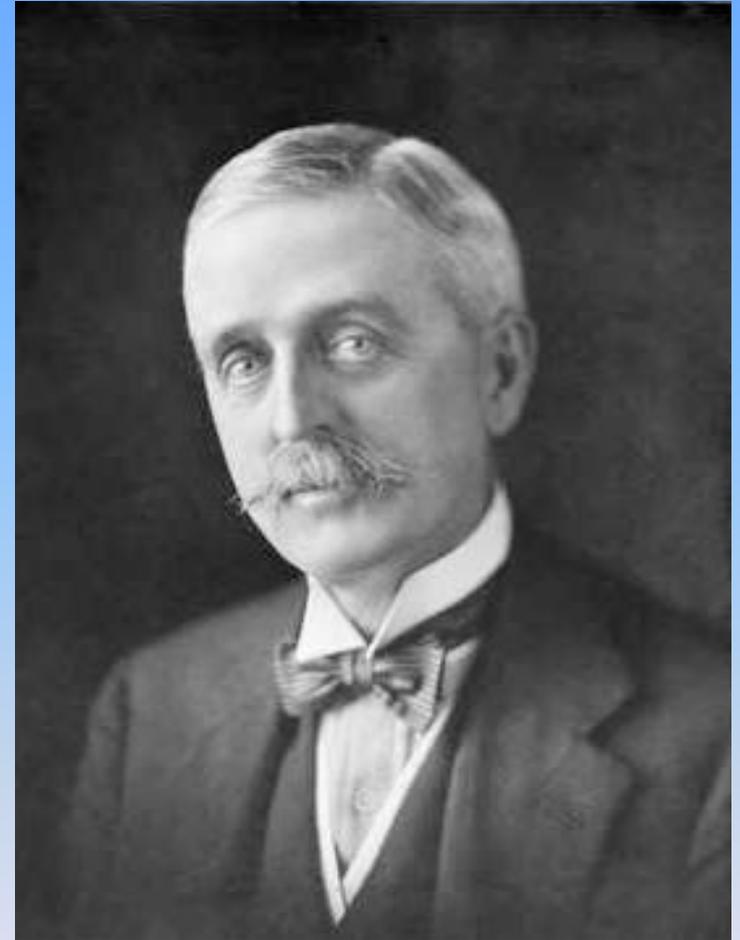

As described in the Banksters Plan of 1892, the enemy today is employing multiple strategies designed to incite and divide the public over inconsequential absurd issues to distract you from recognizing that they are hijacking America right before your eyes.

“This truth is well known among our principal men now engaged in forming an imperialism of Capital to govern the world. By dividing the voters through the political party system, we can get them to expend their energies in fighting over questions of no importance. Thus by discreet action we can secure for ourselves what has been so well planned and so successfully accomplished.”

— SIR DENISON MILLER

Who is this enemy?

Follow the money... Who is benefiting from these crises? Who is not being prosecuted?

For when you ask those questions, you will be led to a group of insiders at the Federal Reserve, Wall Street and the largest banks. These crooks, liars and thieves own the Federal Reserve which they cunningly named “federal” as a deceptive ploy to pull the wool over the eyes of We, The People.

But the “Federal” Reserve is as federal as Federal Express. It is a privately held, for-profit corporation owned by the “Powers-That-Be; the invisible shadow government; an international cabal of bankers, or more accurately, “Banksters” for they truly are a crime syndicate. They are the international rulers who orchestrate the events in our world to ensure both their perpetual wealth and power, and our servitude.

Why would a government with a Constitution which states that only Congress can create money, turn that power over to a private corporation?

The Federal Reserve was a Trojan Horse ushered in under the guise of providing a cure for the booms and depressions which were wreaking havoc on the American economy prior to 1912.

Our ancestors didn't realize that they were being duped - that these so-called natural "cycles" were deliberately engineered by the Banksters to create the illusion that there was a problem and that only they could provide the solution!

That solution, the Federal Reserve, provided the entree which enabled the Banksters to infiltrate our government from within and gradually, systematically seize power over every aspect of American life.

“The king bankers put in motion, in 1907, a great scheme. They had gambled and speculated on Wall Street until so many watered stocks and bonds had been manufactured...The king bankers knew the condition and informed the favored of their friends what was to come. There was to be a panic in the fall of 1907 that would be advertised as the result of our bad banking and currency laws.”

*“To cover the fact that a central bank is merely a cartel which has been legalized, its proponents had to lay down a thick smoke screen of technical jargon focusing always on how it would supposedly **benefit** commerce, the public, and the nation... there was not the slightest glimmer that underneath it all, was a master plan which was designed from top to bottom to serve private interests at the expense of the public... the system is merely a cartel with a government facade.”*

Today, this banking scam has evolved to a point where the Fed prints fake counterfeit money backed by nothing and then “loans” that fake money to our government at interest – compounding interest!

“The Federal Reserve Bank is nothing but a banking fraud and an unlawful crime against civilization. Why? Because they ‘create’ the money made out of nothing, and our Uncle Sam Government issues their ‘Federal Reserve Notes’ and stamps our Government approval with NO obligation whatever from these Federal Reserve Banks, Individual Banks or National Banks, etc.”

— H. L. BIRUM, SR.

AMERICAN MERCURY, AUGUST 1957, P. 43

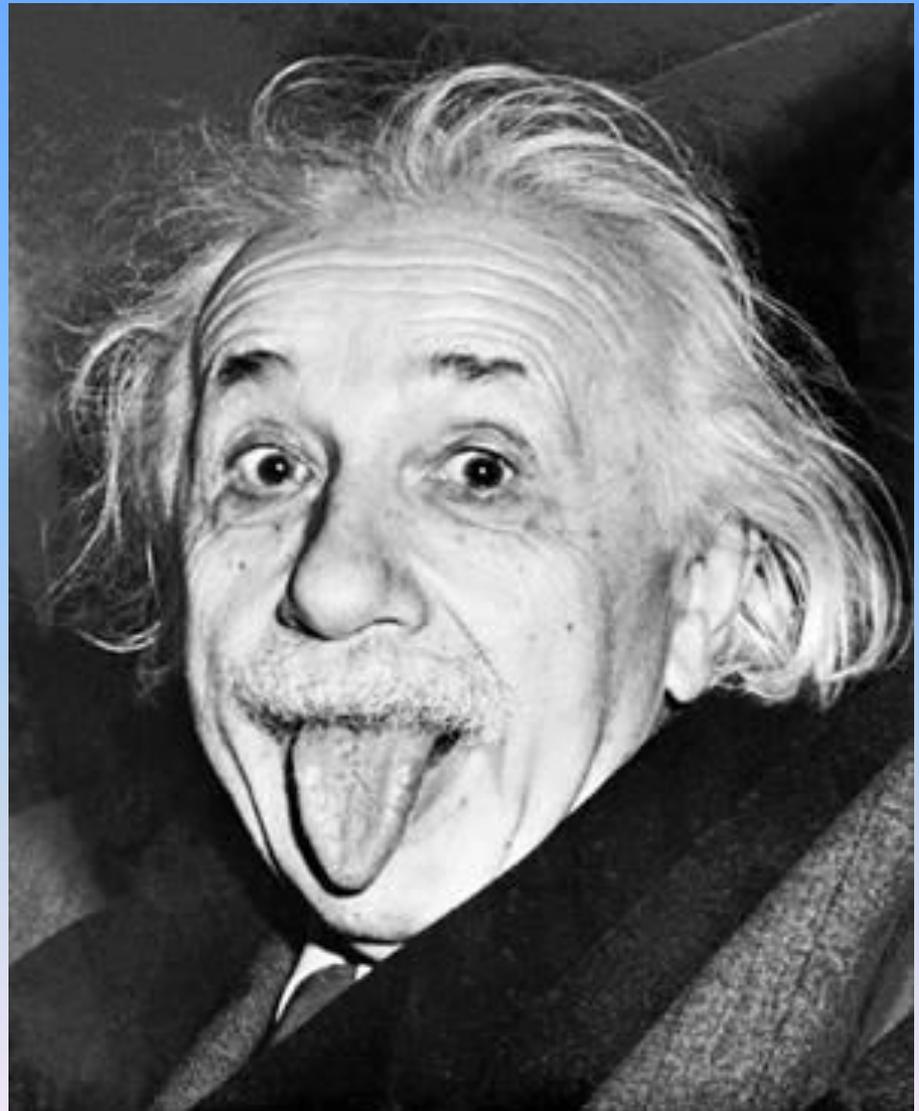

When Albert Einstein was asked:

*“What is the most fantastic thing
you ever realized in all your
studies?”*

He responded,

“Compound interest.”

Compounding interest is the only reason we have a “so-called” national debt which is nothing more than a control mechanism the Banksters use to convince We, the People that we are responsible for this illusory deficit.

The Banksters are attempting to brainwash us into believing that the inevitable day of reckoning has arrived. That the “can” of excess spending and escalating national debt has been kicked down the road for so long that We, the People must now pay the price of austerity and cut Social Security, Medicare, Medicaid, education, food stamps and virtually every other program which provides benefits to those in need.

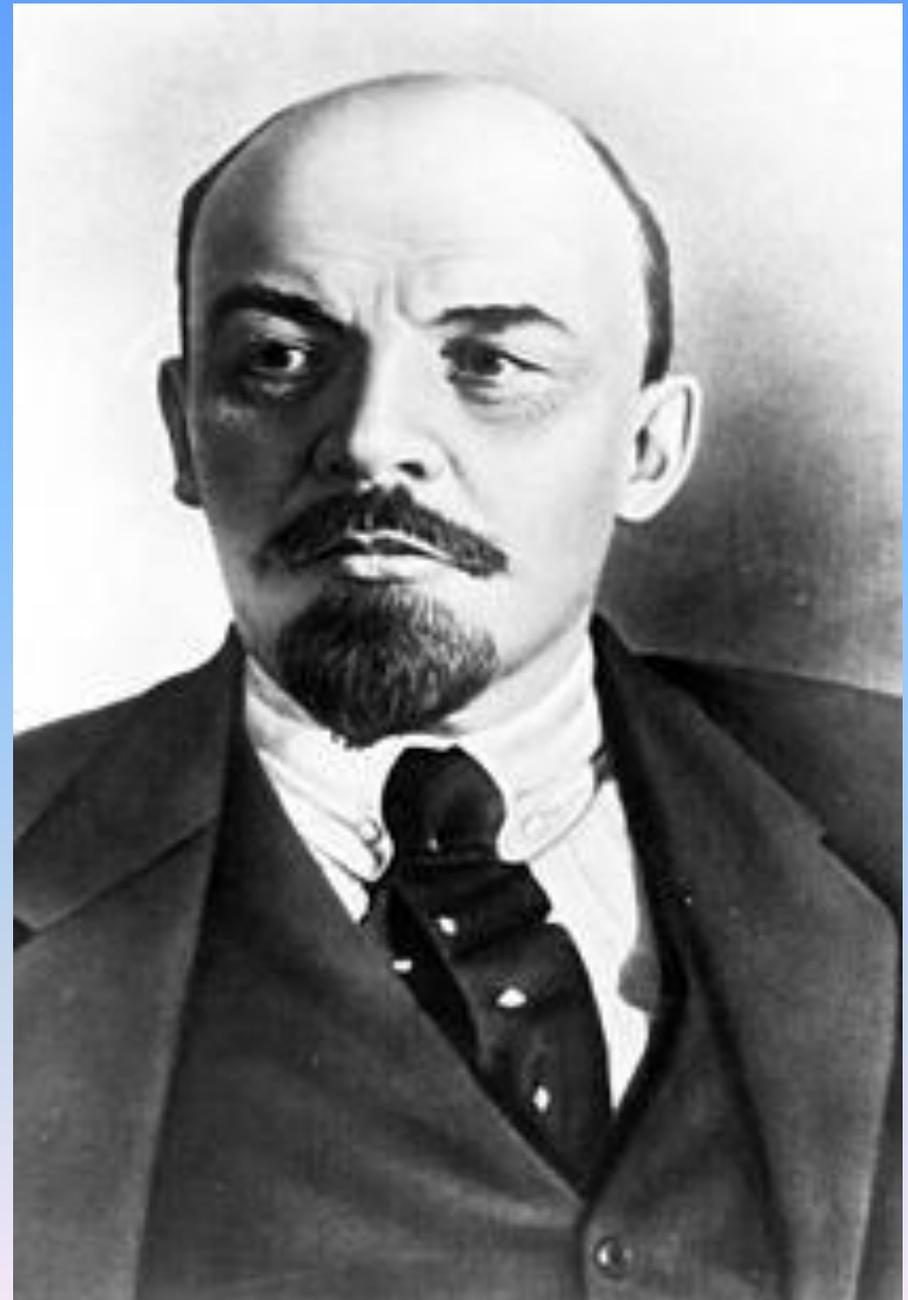

But it's a scam designed to brainwash the Sheeple while the enemy employs Stalin's tactics to crush the bourgeoisie – the middle class of America.

*“The way to crush the bourgeoisie
(common class of people) is to grind
them between the millstones of
taxation and inflation.”*

What effect would these cuts have?

They would further “starve the beast,” (us) and banish even more of the middle class into survival-mode.

To deflect blame from themselves, the Banksters blamed the foreclosure crisis on irresponsible Americans who used their homes as ATM machines!

But the truth is, the Banksters rigged the game and deliberately created mortgages which were “designed to fail.” They granted loans to anyone, and if the borrower didn’t qualify, bank employees were instructed to falsify the loan application as validated through their sworn testimony in mortgage-backed securities lawsuits. These deceptive maneuvers lured millions into the Banksters trap while they inflated the real estate bubble by artificially keeping interest rates low, and loans, easy to obtain.

While the banks were busy obtaining loans, Wall Street was busy luring investors into their Ponzi scheme selling them mortgage-backed securities.

Once the borrowers and investors were entrapped, the stage was set for the next phase of the Banksters scheme: The Fed raised interest rates 14 times between 2004-2007.

The result? Higher mortgage payments for sub-prime borrowers who could not afford the now much higher payments which triggered mass defaults. These defaults, coupled with high unemployment, then began to trickle up to borrowers with a great deal of equity in their homes, whose value was now in a death spiral as foreclosures increased and values plummeted.

Next, the Banksters blamed the financial crises in Greece, Spain, Italy, Iceland and Ireland on its citizens who they characterized as living like lazy kings off the government with weeks of paid vacations, free health care....etc.

But the truth is, the investors in these countries made the mistake of trusting the morally corrupt thieves at Goldman Sachs and bought “low risk AAA-rated” mortgage-backed securities containing mortgages which were designed to fail and did just that thus catalyzing the loss of pension funds and bankrupting countries around the world.

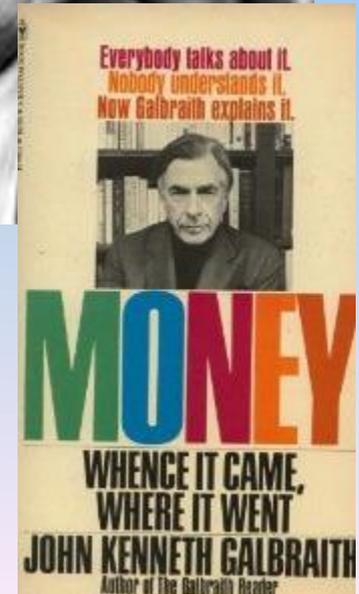

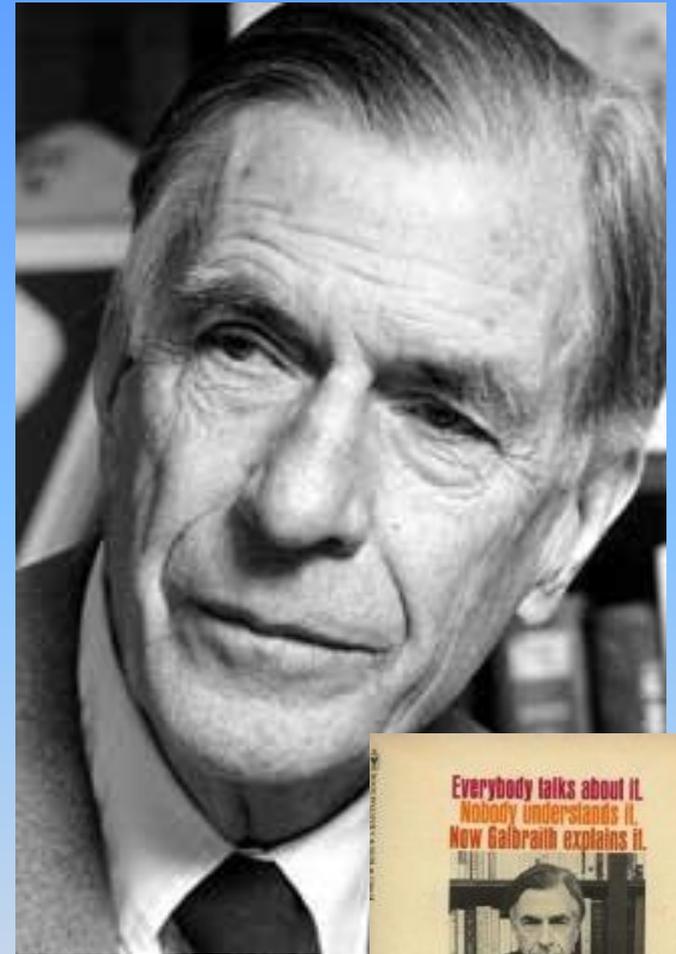

The icing on the cake? Goldman and its cronies never bothered to deliver the mortgages to the investors, which by law they are required to do... Instead they kept them, copied them and resold them multiple times to other investors! But only after monetizing them at the Fed for 10x their value, ledgering the debt on the public side of their books and the asset, on the private side!

Before the public had the chance to “connect the dots” and recognize the diabolical nature of their scheme, the Banksters had seized Trillions of dollars and created such irreparable chaos in the economy, no one would be capable of unraveling their complex scheme... thereby granting them plausible deniability...

“The study of money, above all other fields in economics, is one in which complexity is used to disguise truth or to evade truth, not to reveal it. The process by which banks create money is so simple the mind is repelled. With something so important, a deeper mystery seems only decent.”

— JOHN KENNETH GALBRAITH
(1908-2006)

CANADIAN-BORN ECONOMIST, HARVARD
PROFESSOR *‘MONEY: WHENCE IT CAME, WHERE IT
WENT’*(1975)

How have the Banksters managed to dupe us for so long?

They created the illusion that America was the land of the free and the home of the brave; that America was special; that others coveted our freedom; that our civilized society espoused a foundation of virtuous values; that of truth, honesty, morals, ethics, social conscience, and integrity.

These were the core attributes that we aspired to, taught our children and believed that we all were living under.

Once we were programmed, the Banksters exploited our naivete and we have been played ever since.

The financial crisis spawned the Great Recession which was meticulously engineered to collapse the economy, which, by the way, was going to collapse anyway.

When the Fed was conceived, the Banksters were fully aware that their gig would be up sometime in the future, as the debt-based fractional reserve monetary system the U.S. utilizes has an expiration date.

As debt increases, the compounding interest increases exponentially until it reaches a point where it exceeds the amount of revenue coming into the government.

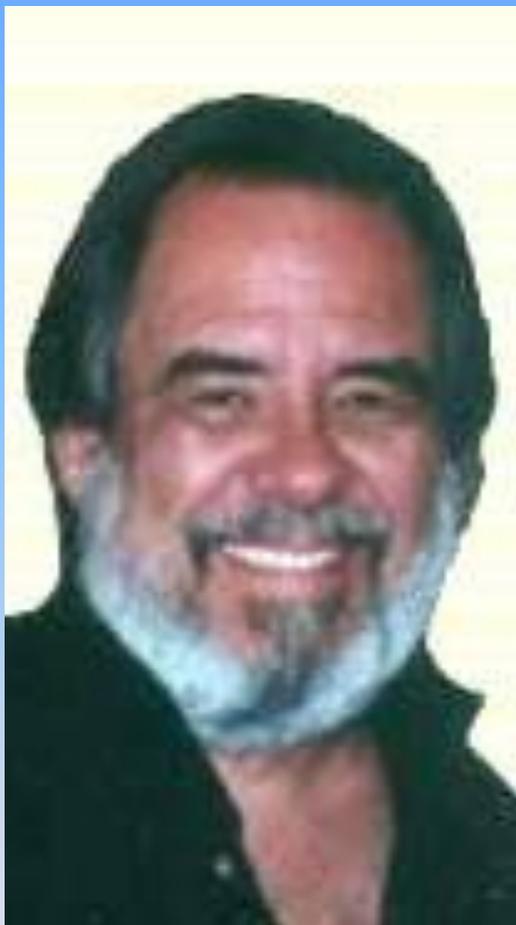

The U.S. actually reached this point prior to 1981...

When President Reagan assumed office in 1981, inflation had soared to 12.5% prompting him to appoint the Grace Commission which he instructed to "be bold" and "work like tireless bloodhounds to cut any excess waste and inefficiency in the government; not to leave any stone unturned in your search to root out inefficiency."

However, what the Commission found was shocking:

“One-third of all income taxes is consumed by waste and inefficiency in the federal government, and another one-third escapes collection owing to the underground economy. With two thirds of everyone’s personal income taxes wasted or not collected, one hundred percent of what is collected is absorbed solely by interest on the Federal debt and by the Federal Government contributions to transfer payments. In other words, all individual income tax revenues are gone before one nickel is spent on services which taxpayers expect from their Government.”

—PRESIDENT’S PRIVATE SECTOR SURVEY ON COST CONTROL, 1984

“Our current monetary system requires that our money be debased. This is the very nature of the Federal Reserve’s fractional reserve system. Our fiat money supply – which is backed by nothing, must continue to grow forever. One of the many downsides of this system is that the value of our money continues to be debased forever. Constant money supply growth = constant inflation. Constant inflation = constant money devaluation. By ‘forever’ – I mean until the system collapses which is inevitable.”

THE NATURE OF MONEY AND OUR MONETARY SYSTEM, 2004

If, in 1981, one hundred percent of all tax revenue collected was used to pay the interest on the Federal debt, this debt, with its compounding interest, could only grow larger and more ominous with each passing day until it finally collapses.

The deliberately engineered financial crisis provided the means for the Banksters to control the inevitable collapse of the monetary system to their gain and our loss.

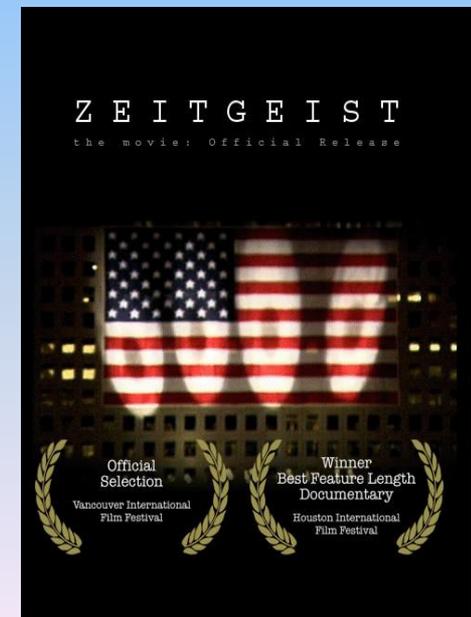

WHY DO THE BANKSTERS WANT TO BRING US TO OUR KNEES?

*Because we have the numbers, we have the power to defeat their plan,
but only if enough of us wake up and learn the truth.*

“The corrupt power establishment’s biggest fear is the coming together of collective human intent for the good of society as a whole. In other words, governments know they can continue corrupt, self-serving practices as long as they successfully divide their population across politically exaggerated lines using race, religion, class, sexuality and the like. It is a tool to separate such groups - and keep them separated.”

— PETER JOSEPH

ZEITGEIST, THE MOVIE 2007

Therefore, the challenge before us is to assist our fellow Americans, Republican and Democrat, in learning the truth and uniting under this common cause, for only together can we restore the American dream, for not only America, but for our brothers and sisters around the world.

John F. Kennedy stated the following in his inaugural address in 1961:

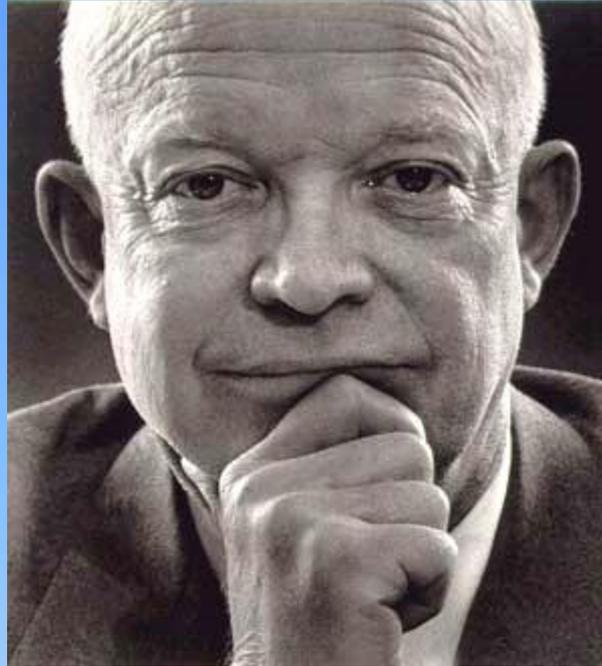

“In the long history of the world, only a few generations have been granted the role of defending freedom in its hour of maximum danger... The same revolutionary beliefs for which our founding fathers fought are still at issue around the globe... That torch has now been passed to our generation. The trumpet summons us again to give testimony to (not only) our national loyalty... (But) to now defend the freedom of Man.”

What we are facing requires a complete transformation of the banking industry and Wall Street for you cannot build upon a corrupt system. Next, our judicial system and educational system must follow, for they too no longer serve the highest good as our forefathers intended.

We, the People must let our voices be heard, for We, the People are backed by our Constitution and legislators who have taken a solemn oath to defend that Constitution. But they can only represent us if we speak up. For when we demand a return to a government-based currency as outlined in our Constitution, lives now filled with pain, anguish and suffering will end, and a new age of truth, integrity, honor, kindness, tolerance, politeness, sharing, caring and prosperity will begin.

And the most important question is:

Do you care?

“A people that values its privileges above its principles soon loses both.”

When Nelson A. Rockefeller was questioned by Congress prior to his installment to a government appointment, he was asked, “How much money did you make last year?” Rockefeller answered, “\$650 million.” “And how much Income Tax did you pay on that?” they asked. His reply? “Nothing.”

“Something is going terribly wrong and putting our country on a very dangerous path that threatens to transform us into ‘Third World America’ - a warning that if we don’t change course - and quickly - that could very well be our future... The middle class is getting the short end of the stick; Washington rushed to the rescue of Wall Street but forgot Main Street. The American dream promised that if you worked hard and played by the rules, you’d do well and your children would have the chance to do even better. But that promise has been broken. The decline of the middle class was no accident; it was the result of tricks and traps: skyrocketing interest rates driving more and more people into debt. The game is indeed rigged. Our financial system has become a bad carnival game where the rich always get the grand prize and the average American walks away empty-handed. We’ve gone from an economy where we make things, to an economy where we make things up: Default Credit Swaps, Derivatives, CDO’s and the like have turned Wall Street into a casino. In Washington, special interests run the show; lobbyists outnumber elected officials 26 to 1. Unfortunately, there are no lobbyists for Main Street. This is beyond Right vs. Left the media loves to apply to every issue in Washington. I think both sides are under the influence of a small financial elite. The media like to pretend that something’s at stake when a big bill is being debated in the House or Senate, but by then the game is often over; the real fight happens behind closed doors. And the lobbyists usually win.”

“The Founding Fathers of this great land had no difficulty whatsoever understanding the agenda of bankers, and they frequently referred to them and their kind as, quote, 'friends of paper money.' They hated the Bank of England, in particular, and felt that even were we successful in winning our independence from England and King George, we could never truly be a nation of free men, unless we had an honest money system. Through ignorance, but moreover, because of apathy, a small, but wealthy, clique of power brokers have robbed us of our Rights and Liberties, and we are being raped of our wealth. We are paying the price for the near-comatose levels of complacency by our parents, and only God knows what might become of our children, should we not work diligently to shake this country from its slumber! Many a nation has lost its freedom at the end of a gun barrel, but here in America, we just decided to hand it over voluntarily. Worse yet, we paid for the tyranny and usurpation out of our own pockets with ‘voluntary’ tax contributions and the use of a debt-laden fiat currency!”

— PRESIDENT FRANKLIN
D. ROOSEVELT
(1882–1945)

32ND PRESIDENT OF THE UNITED
STATES
(1933–1945)

President Franklin Roosevelt was warning us about what is really going on under our very noses. His head, along with that of every other world leader, was and is, at the end of a gun. Our public servants are nothing more than puppets doing as they are told by the Banksters.

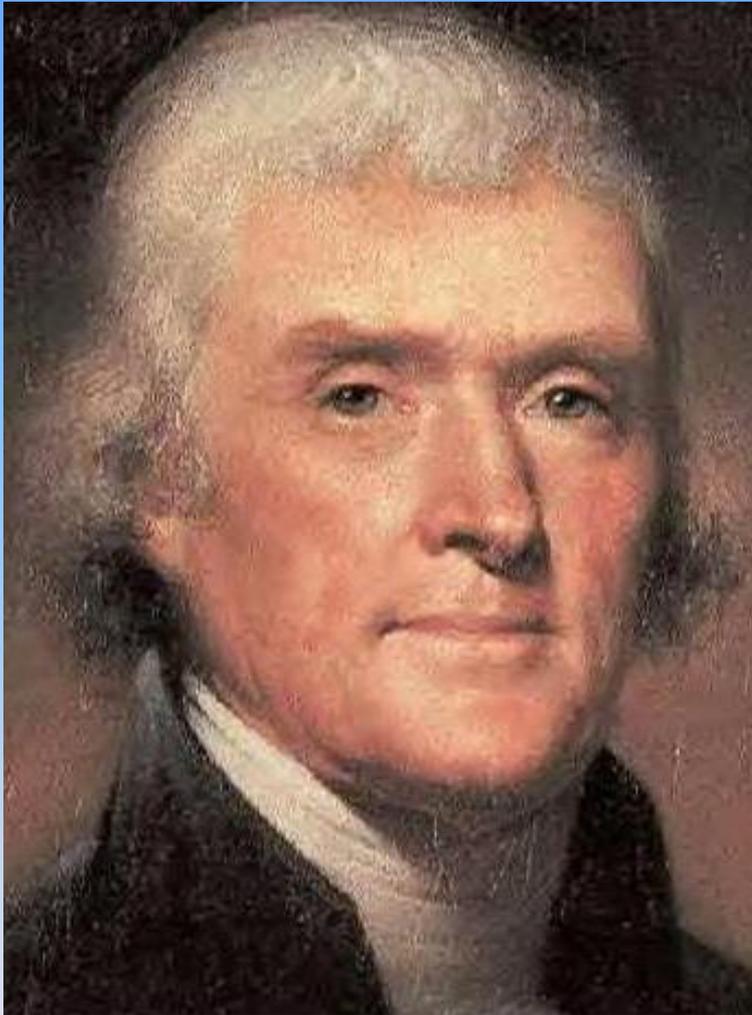

All of these allegations are well documented and when you choose to learn the truth, you will find vast amounts of information along with case law, codes, rules, regulations, statutes, legislation, etc. to support them.

“Once a nation parts with the control of its currency and credit, it matters not who makes the nations laws. Usury, once in control, will wreck any nation. Until the control of the issue of currency and credit is restored to government and recognized as its most sacred responsibility, all talk of the sovereignty of parliament and of democracy is idle and futile.”

(1874–1950)

PRIME MINISTER OF CANADA FROM 1921-1930; AND
1935-1948

“If the American people ever allow private banks to control the issue of their currency, first by inflation, then by deflation, the banks... will deprive the people of all property until their children wake-up homeless on the continent their fathers conquered... “Congressman Charles Lindbergh, Sr., the father of the famous aviator, was among those who fought the passage of the Dark Act (1913 passage of the Federal Reserve Act) and later managed to raise an investigation into the cartel. His life was made extremely difficult as a direct result of crying for such investigation. Lindbergh had openly yelled his warning to Congress and to the American people. It was all to no avail. No one would hear his cry in the wilderness. It must be noted that Lindbergh's efforts to expose the plot were followed by those of Congressman Louis T. McFadden, who chaired the House Banking and Currency Committee for a ten year period. During his tenure, three attempts were made on his life. First, he was shot in Washington, D.C., then his food was poisoned. The third attempt was unfortunately successful. His mysterious death occurred while on a visit to New York City. The cause of death, as listed on the death certificate, was given as ‘heart failure’, although more than enough evidence pointed to poisoning. It is my proffered opinion that Mr. McFadden was poisoned by members of the cartel. Without proper court orders demanding the exhumation and forensic pathology tests, we shall never know the true story.”

*“The bankers first bought all the politicians. Next they bought all the major media to promote the illusion that politicians represent our interests. Then they took control of the education system, ensuring kids stop thinking at an early age. The Office of Homeland Security is designed to control us in order to confiscate our funds for the purpose of paying **the alleged debt** of trillions of dollars. It’s only a matter of time before we will have no more cash, no pensions, no government ‘benefits’. If we resist, there is an Orwellian police state and military police to ensure it.”*

DEFINING CONGRESS:

The English language has some wonderfully anthropomorphic collective nouns for the various groups of animals.

We are all familiar with a Herd of cows, a Flock of chickens, a School of fish and a Gaggle of geese.

However, less widely known is a Pride of lions, a Murder of crows (as well as their cousins the rooks and ravens), an Exaltation of doves and, presumably because they look so wise, a Parliament of owls.

Now consider a group of Baboons. They are the loudest, most dangerous, most obnoxious, most viciously aggressive and least intelligent of all primates. And what is the proper collective noun for a group of baboons?

Believe it or not a Congress!
It is all becoming perfectly clear isn't it!

NO WONDER WE'RE IN SO MUCH DEEP DO-DO!

[and people keep voting for these baboons in Congress and CHANGE IS COMING for their representing the interests of the bankers... not you!]

On Friday March 22, 1935, Robert H. Hemphill stated the following before The House of Representative's Committee on Banking & Currency in Washington D.C.:

“... there has been for 200 years, since one certain man came into power as a financial genius, Mayer Anselm Rothschild, who was born in 1790—since he came into power there has been a constant, organized, shrewd conspiracy to convince the people of the world that this is not true, to convince men against their own judgment, against a thing which is self-evident. And that conspiracy has involved the press, it has involved the pulpit, it has involved our schools, a conspiracy to mislead people about the importance of a very simple thing —money. The interests who promote this confusion profit by retaining for themselves the monopoly of manufacturing our money.”

October 29, 2010 - Opening remarks given by Bill Still (Creator of the film
“The Secrets of Oz” to the Bromsgrove Monetary Reform Conference in
England:

*“The global economy continues to crash. Unemployment continues to spiral upwards. Government budgets are tightening dramatically in the wake of the bursting of the global real estate bubble – **a bubble that was specifically caused by banks being in complete control of the money supply instead of sovereign nations being in control of their national money.** That is the basic problem that we are facing, and until this problem is addressed, no amount of national austerity can stop this continuing cascade of negative economic events. England is trying the last thing there is to try – drastically cut government spending – austerity. But as those of us in this room are acutely aware, this is not going to work. So it is our obligation to be able to say why this is not working and offer a solution. We call the solution “monetary reform” which rests on two great inviolable pillars of truth. **Pillar #1: Government borrowing must be forbidden.** The money power – the power to create the national money – is the most important power of a sovereign nation, in fact, it is the very definition of sovereignty. **Nations do not have to borrow, nations can create.** The problem is that when the nation borrows from a bank – as Proverbs tells us – the borrower becomes servant to the lender. That's not sovereignty! So what is the result? The banks have power over the political system as well as the monetary system. So, you no longer have a sovereign democracy; you have rule by banks. Political science has coined a term for this – plutocracy. This is the primary problem with the economy of every nation today. They have allowed the national debt system to predominate.*

I say, no more national debt! Let's use the U.S. example today: President Obama (under the control of the Banksters who OWN the government) has stimulated the economy with about \$2 trillion. But here's the problem: The money was borrowed mostly from the biggest banks, with interest attached. Then this money was given back to the very same banks. (read: As “Corporate CEO” of the U.S. he must follow the orders of the “board of Directors” of the corporation...) This system just can't get any worse!

Pillar #2: Banks must stop lending money they do not have. This is called the fractional reserve lending system which allows banks to lend out 10 to 12 times as much money at interest than they actually have. If you or I did this, we would be charged with fraud and/or counterfeiting. This fractional reserve system allows the banks to consolidate the wealth of the nation, and that, combined with a national debt, allows them to use that leverage to control the politics of the nation to be sure that their power is protected and even enhanced. Again, this is the very definition of plutocracy.

King Henry I, the first Norman King of England, and the son of William the Conqueror, encountered this exact same problem in 1100 A.D. and created the tally stick system of currency as a result. The goldsmiths had discovered that they could control the King by withdrawing their loans of gold money. Since their gold money was the most convenient money to use — trading grain for deer skins worked, but was less convenient — when they stopped lending it out, there was less in circulation, the overall supply of money dropped, and this caused a depression. The people didn't understand why there was a depression, so they blamed the King. So, the goldsmiths became accustomed to being able to bully the King by the mere threat of reducing the money supply.

This is exactly what's going on today, just in a little more sophisticated way. This power of the goldsmiths is bad enough when they only control the quantity of lending in the broad population, but it is further amplified when the sovereign, himself, is a borrower from the goldsmiths — “the borrower shall be servant to the lender.” So this is a two-pronged problem.

*When the bankers have control over the money supply - the quantity of money - then the government is no longer sovereign — no longer the supreme power of the land, and most importantly, can no longer operate in the public interest. Government determined by the citizenry and directed by their elected representatives is literally all that stands between us and serfdom (slavery)— rule by banks. In today's world, the democratic aspects of government have been significantly eroded, entirely and completely because government has lost these two great pillars of truth — government is borrowing from bankers —
— and government has lost control over the quantity of their national money.*

This is why we know that no amount of austerity or further government borrowing can possibly fix this problem. This week I've met with some wonderful younger folks who understand these essential truths... These young, inquiring minds, realize that the old ways aren't working — that something is very wrong.

They can't get jobs the way their parents could just a generation earlier. They are now propelled — through both self-interest as well as the normal idealism of young adults — to start looking outside the box of their traditional training for something that will work. They see the future — even better than we do — and they're going to fix this. This is wonderfully encouraging.

Now, more than ever before, I'm convinced that reform is inevitable — and in the relatively near future. The truth of the manipulation of our money supply can no longer be hidden. These fresh young faces will supply sufficient youthful energy to finally break humanity free of the enslaving shackles of the debt money system.”

MONEY 101

THE MAGIC OF FRACTIONAL
BANKING

“It all began with the gold smiths of the late middle ages who held gold for wealthy persons who did not wish burden or the risk of carrying it around. The gold smiths issued receipts for the gold. People found it convenient to use these receipts as a medium of exchange rather than withdrawing gold, paying it to the creditor, with the creditor then depositing the gold with the gold smith. The gold smiths made loans based on their deposits. Then, since depositors rarely came at one time to withdraw the gold, they began to make loans of up to 10 times the amount of the actual gold on deposit. Nobody was any the wiser and the gold smiths got very rich. The gold smiths were creating money, ten times the amount of money they had on deposit. Banks now do the same thing. It is called “fractionalized reserve banking.” They loan a lot more than they have on deposit. What they have on “deposit” and call an “asset” for the purposes of the ratio will surprise you.”

— CONGRESSMAN WRIGHT PATMAN

(1893–1976)

CHAIR OF THE UNITED STATES HOUSE COMMITTEE ON BANKING
AND CURRENCY (1965–1975)

ALL MONEY IS “BORROWED”
INTO EXISTENCE

Money doesn't exist until someone borrows it; it is 'debt-based money.' The 'money' the banks issue is not backed by their assets, efforts, property, or risk; it is fake - created out of thin air, which is the reason the Fed has never been audited. We are led to believe that when we obtain a loan, the money loaned to us comes from bank deposits, but that is a charade.

Banks are not permitted to lend their money or assets; they are only allowed to lend credit - which We, the People create. Upon signing a \$100,000. promissory note, the Fed credits ten times the amount of your loan, or \$1 Million fake dollars to the issuing bank. The bank then "loans" you \$100,000 at interest, retains \$100,000. for its reserves and loans out the remaining \$800,000 at interest you just created for them!

This SCAM is called "fractional reserve banking."

Wikipedia: The banking practice in which banks keep only a fraction of their deposits in reserve (as cash and other highly liquid assets) and create the remainder as 'cheque book money', while maintaining the simultaneous obligation to redeem all these deposits upon demand. Fractional reserve banking occurs when banks lend out funds that it does not have on deposit instead of funds solely received from deposit accounts, and is practiced by all modern commercial banks. The practice of fractional reserve banking expands the money supply (cash and demand deposits) beyond what it would otherwise be. Due to the prevalence of fractional reserve banking, the broad money supply of most countries is a multiple larger than the amount of base money created by the country's central bank. That multiple (called the money multiplier) is determined by the reserve requirement or other financial ratio requirements imposed by financial regulators, and by the excess reserves kept by commercial banks. Central banks generally mandate reserve requirements that require banks to keep a minimum fraction of their demand deposits as cash reserves. This both limits the amount of money creation that occurs in the commercial banking system, and ensures that banks have enough ready cash to meet normal demand for withdrawals. Problems can arise, however, when a large number of depositors seek withdrawal of their deposits; this can cause a bank run or, when problems are extreme and widespread, a systemic crisis. To mitigate these problems, central banks generally regulate and oversee commercial banks, act as lender of last resort to commercial banks, and also insure the deposits of the commercial banks' customers.

Your promissory note is a 'negotiable instrument' which becomes an asset on the bank's books. According to the Uniform Commercial Code 1-201(24) and 3-104, your signature creates the "money." The bank then establishes an account containing the "money" you just created and becomes "the pretend source" of funds you received as a 'loan'. According to the law, collateral is essential to an 'enforceable' contract .

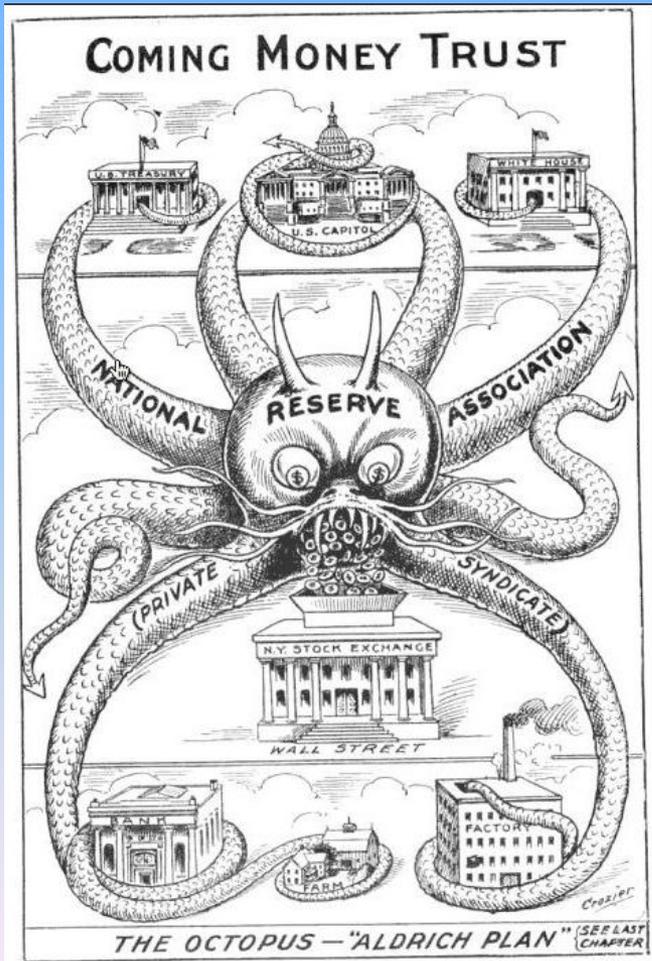

However, your note was obtained via fraud because the bank did not loan you any money, therefore the entire transaction/contract is fraudulent. According to a lawsuit entitled "the Ashley case" of 1988, fraud on the part of the bank was proven because the defendant revealed, "the banks told me they had 'money' to lend and they didn't."

The Banksters legalized this counterfeit system by publishing their own manual which states: "Money does not have to be issued by the government or be in any special form. Money is anything that can be sold for cash and which the banks accept as money."

“Suppose the government borrows \$10 million. It only costs the bankers a few hundred dollars to actually produce the funds, and a little more to do the book-keeping. Do you think it is fair that our citizens should struggle to keep their homes and families together, while the bankers grow fat on these profits? Credit created by a Government-owned bank is better than credit created by private banks, because there is no need to recover the money from people by way of taxes, and there is no interest attached to inflate the cost. The public work completed with the credit by the Government bank is the asset that replaces the money created when the work is finished. None of our problems will disappear until we correct the creation, supply and circulation of money. Once the money problem is solved, everything else will fall into place.”

*“The actual process of money creation takes place primarily in banks ... bankers discovered that they could make loans merely by giving their promise to pay, or bank notes, to borrowers. In this way banks began to **create** money. Transaction deposits are the modern counterpart of bank notes. It was a small step from printing notes to making book entries crediting deposits of borrowers, which the borrowers in turn could ‘spend’ by writing checks, thereby ‘printing’ their own money.”*

“A deposit created through lending is a debt that has to be paid on demand of the depositor, just the same as the debt arising from a customer's deposit of checks or currency in the bank. Of course they do not really pay out loans from the money they receive as deposits. If they did this, no additional money would be created. What they do when they make loans is to accept promissory notes in exchange for credits to the borrowers' transaction accounts.”

“Banks create credit. It is a mistake to suppose that bank credit is created to any extent by the payment of money into the banks. A loan made by a bank is a clear addition to the amount of money in the community.”

THE UNSUSTAINABLE DEBT- BASED MONETARY SYSTEM

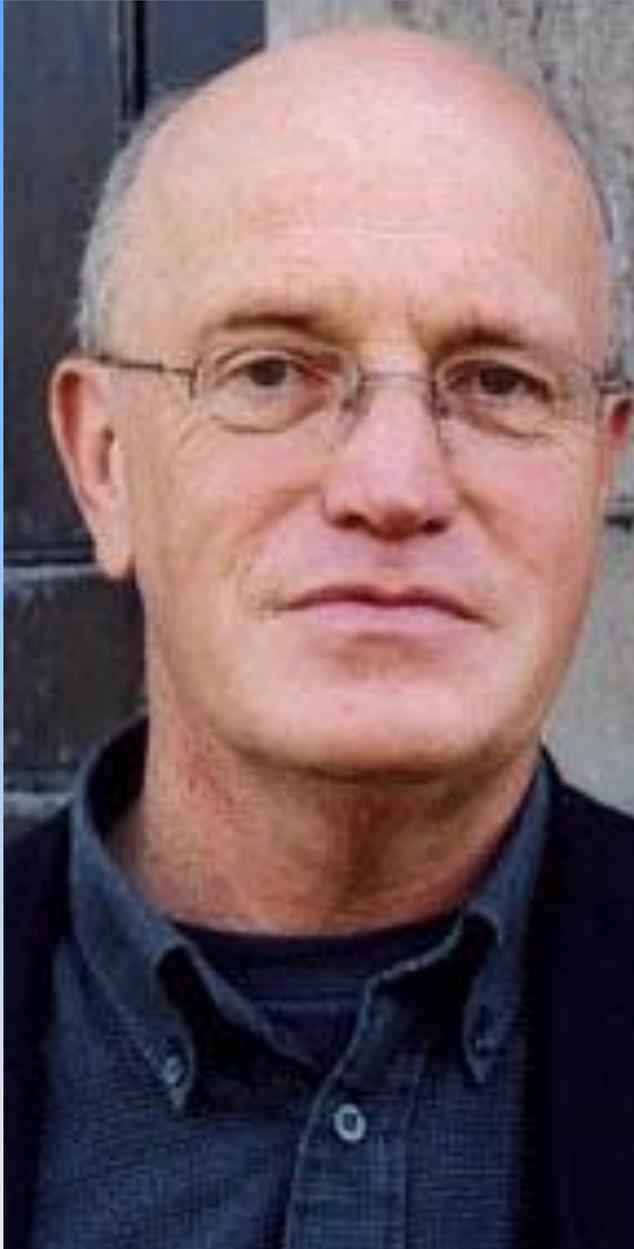

The United States pays the expenses of running the government from the taxes it collects. However, our taxes do not generate enough money to pay all the expenses so the difference is paid in bonds created by the Federal Reserve. The Fed creates the bonds and pays for them with money they create out of thin air through electronic credits. The receiving banks use these credits to make loans at ten-twelve times the amount of the credits.

Bonds are sold to the public (and other nations, including China) and the money to pay for these bonds is drawn from the purchaser's bank to pay for them. Each \$1 million used to pay for these bonds reduces the bank's ability to make loans by \$10 million thus contracting the money supply.

What is used to back these bonds? The labor/assets of the American people. This is how you and I are enslaved to trillions of dollars of debt and the continually accruing interest by the privately-owned Federal Reserve!

Even if the government found a way to pay off the national debt, there would be no bonds to back the currency because that would then kill the currency!

This clearly amounts to an unsustainable system.

“Our whole monetary system is dishonest, as it is debt-based... We did not vote for it. It grew upon us gradually but markedly since 1971 when the commodity-based system was abandoned.”

“We are completely dependent on the commercial banks. Someone has to borrow every dollar we have in circulation, cash or credit. If the banks create ample synthetic money we are prosperous; if not, we starve. We are absolutely without a permanent money system. It is the most important subject intelligent persons can investigate and reflect upon. It is so important that our present civilization may collapse unless it becomes widely understood and the defects remedied very soon.”

“For commerce to work there must be a debtor and a creditor. An account is created to keep track of the debts and credits. In commerce, the only way one can win is to have more debtors than creditors. This is done by starting a business. We then sell to others, our time and talent. The more people you find with needs, the more debtors you have. The problem with this system is that we are forced to be in competition with others who are offering the same time and talent. In order for one to win, the other must lose. The more people I put out of business the better I can support my family. We make our brother a debtor to us by working for the ‘love of money’ instead of the ‘love of service’ and giving our time and talent in love. When we keep accounts – who owes whom – we keep a record of wrongs. Also, to win in commerce we must destroy the competition. Nothing personal, it’s just business.”

“A nation can survive its fools, and even the ambitious. But it cannot survive treason from within. An enemy at the gates is less formidable, for he is known and carries his banners openly against the city. But the traitor who moves among those within the gates freely, his sly whispers rustling through all the alleys, heard in the very halls of government itself. For the traitor appears (to be) no traitor; he speaks in the accents familiar to his victims, and he wears their face and their garments, and he appeals to the baseness that lies deep in the hearts of all men. He rots the soul of a nation; he works secretly and unknown in the night to undermine the pillars of a city; he infects the body politic so that it can no longer resist.”

The men share a common goal: to protect the interests of big banks in the vast market for derivatives, one of the most profitable — and controversial — fields in finance. They also share a common secret: The details of their meetings, even their identities, have been strictly confidential. Drawn from giants like JPMorgan Chase, Goldman Sachs and Morgan Stanley, the bankers form a powerful committee that helps oversee trading in derivatives, instruments which, like insurance, are used to hedge risk. In theory, this group exists to safeguard the integrity of the multitrillion-dollar market. In practice, it defends the dominance of the big banks. The banks in this group, which is affiliated with a new derivatives clearinghouse, have fought to block other banks from entering the market, and they are also trying to thwart efforts to make full information on prices and fees freely available.

The law compels that the appointees be selected from a pool of bankers, no one represents the interests of we, the People. The Federal Reserve cannot be audited by Congress hence we cannot be privy to their actual profits. THE MANIPULATIONS THE
BANKSTERS USE TO
MAINTAIN THEIR POWER

*“According to William Guy Carr, in ‘Pawns in the Game,’ the initial meeting of these ex-officio planners took place in Mayer Amschel Bauer’s Goldsmith Shop in Frankfurt in 1773. Bauer, was only thirty years of age when he invited twelve other wealthy and influential men to meet him in Frankfurt. His purpose was to convince them that if they agreed to pool their resources they could then finance and control the World Revolutionary Movement and use it as their Manual of Action to win ultimate control of the wealth, natural resources, and manpower of the entire world. This agreement reached, Mayer unfolded his revolutionary plan. The project would be backed by all the power that could be purchased with their pooled resources. By clever manipulation of their combined wealth **it would be possible to create such adverse economic conditions that the masses would be reduced to a state bordering on starvation by unemployment... Their paid propagandists would arouse feelings of hatred and revenge against the ruling classes by exposing all real and alleged cases of extravagance, licentious conduct, injustice, oppression, and persecution.** They would also invent infamies to bring into disrepute others who might, if left alone, interfere with their overall plans... Rothschild turned to a manuscript and proceeded to read a carefully prepared plan of action. 1. He argued that LAW was FORCE only in disguise. He reasoned it was logical to conclude ‘By the laws of nature right lies in force.’ 2. Political freedom is an idea, not a fact. In order to usurp political power all that was necessary was to preach ‘Liberalism’ so that the electorate, for the sake of an idea, would yield some of their power and prerogatives which the plotters could then gather into their own hands. 3. The speaker asserted that the Power of Gold had usurped the power of Liberal rulers.... He pointed out that it was immaterial to the success of his plan whether the established governments were destroyed by external or internal foes because the victor had to, of necessity, ask the aid of ‘Capital’ which ‘Is entirely in our hands’. 4. He argued that the use of any and all means to reach their final goal was justified on the grounds that the ruler who governed by the moral code was not a skilled politician because he left himself vulnerable and in an unstable position. 5. He asserted that ‘Our right lies in force. The word RIGHT is an abstract thought and proves nothing. I find a new RIGHT... to attack by the Right of the Strong, to reconstruct all existing institutions, and to become the sovereign Lord of all those who left to us the Rights to their powers by laying them down to us in their liberalism. 6. **The power of our resources must remain invisible until the very moment when it has gained such strength that no cunning or force can undermine it.** He went on to outline twenty-five points. 8. Dealt with the use of alcoholic liquors, drugs, moral corruption, and all vice to **systematically corrupt youth of all nations.** 9. They had the right to seize property by any means, and without hesitation, if by doing so they secured submission and sovereignty. 10. We were the first to put the slogans Liberty, Equality, and Fraternity into the mouths of the masses, which set up a new aristocracy. The qualification for this aristocracy is WEALTH which is dependent on us. 11. Wars should be directed so that the nations engaged on both sides should be further in our debt. 12. Candidates for public office should be servile and obedient to our commands, so that they may readily be used. 13. Propaganda--their combined wealth would control all outlets of public information. 14. Panics and financial depressions would ultimately result in World Government, a new order of one world government.” — EUSTACE MULLINS - 1950 -THE SECRETS OF THE FEDERAL RESERVE CITING WILLIAM GUY CARR, PAWNS IN THE GAME, PRIVATELY PRINTED, 1956*

THE FRAUDULENT NATIONAL DEBT

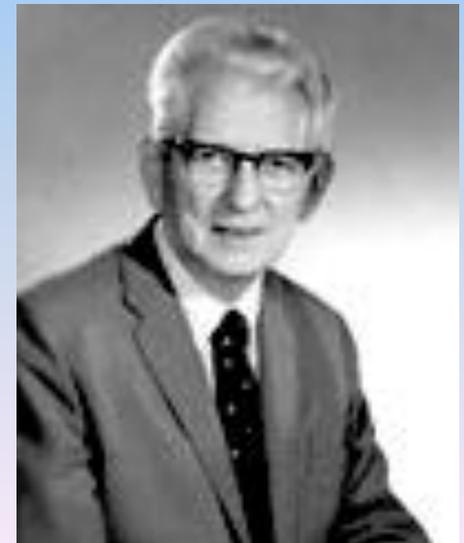

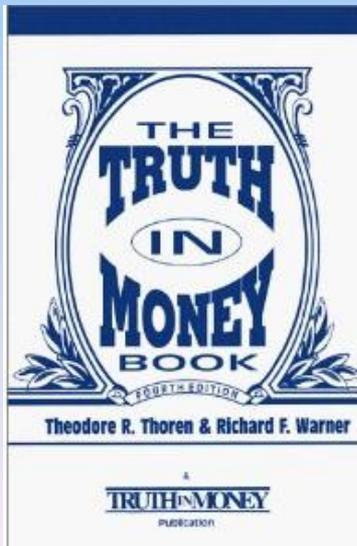

“When our Federal Government, that has the exclusive power to create money, creates that money and then goes into the open market and borrows it and pays interest for the use of its own money, it occurs to me that that is going too far. I have never yet had anyone who could, through the use of logic and reason, justify the Federal Government borrowing the use of its own money... I am saying to you in all sincerity, and with all the earnestness that I possess, it is absolutely wrong for the Government to issue interest-bearing obligations. It is not only wrong: it is extravagant. It is not only extravagant, it is wasteful. It is absolutely unnecessary.”

— CONGRESSMAN WRIGHT PATMAN

D- TEXAS SEPTEMBER 29, 1941 CONGRESSIONAL
RECORD OF THE HOUSE OF REPRESENTATIVES
(PAGES 7582-7583)

Author Theodore R. Thoren explains in “Truth in Money” that the national debt is an illusion because the interest on the debt is unpayable; it simply accumulates endlessly. However, the interest on the national debt is paid before any other expense. Why? The entire system would collapse if it didn't. If the debt is reduced, money then disappears from circulation which in turn causes depression. This cycle can only maintain balance if enough money is in circulation; in fact, the quantity of money in circulation determines whether the economy is good or bad. You will soon learn in the next section of this thesis that this boom/bust cycle has occurred throughout history and has been cunningly manipulated by the Banksters as a means to maintain their power, control and to ensure their perpetual wealth.

“A government, whether a royal monarchy or a democracy, can simply print and issue greenbacks, or give recipients a government check. The government would incur no debt to anybody if this method were used, and if interest was to be charged, the government would get the interest. Our Constitution authorizes this method for us. Under the exclusive franchise to manufacture money that we have delegated to the 12 bankers, these private bankers can simply “write a check” with absolutely nothing to back it up. They can create money out of thin air, loan it to us, to businesses, and to our government, and make a private profit from the interest charged. This private money manufacturing process is backed by our law that makes this money legal tender, and it is guaranteed by our government and hence, by us taxpayers. It is a magic money-making scheme that makes private bankers wealthy beyond imagination.”

“Most are dependent upon ‘The System’ which forces us to live in a never-ending debt cycle. According to statistics available in March 2011, the Federal Reserve will have increased the monetary supply from \$800 billion in 2008 to \$3.8 trillion by the end of the summer of 2011. That is a 475% increase which will unequivocally lead to the devaluation of the dollar and significant inflation.

“The National Debt has continued to increase an average of \$4.15 billion per day since September 28, 2007!”

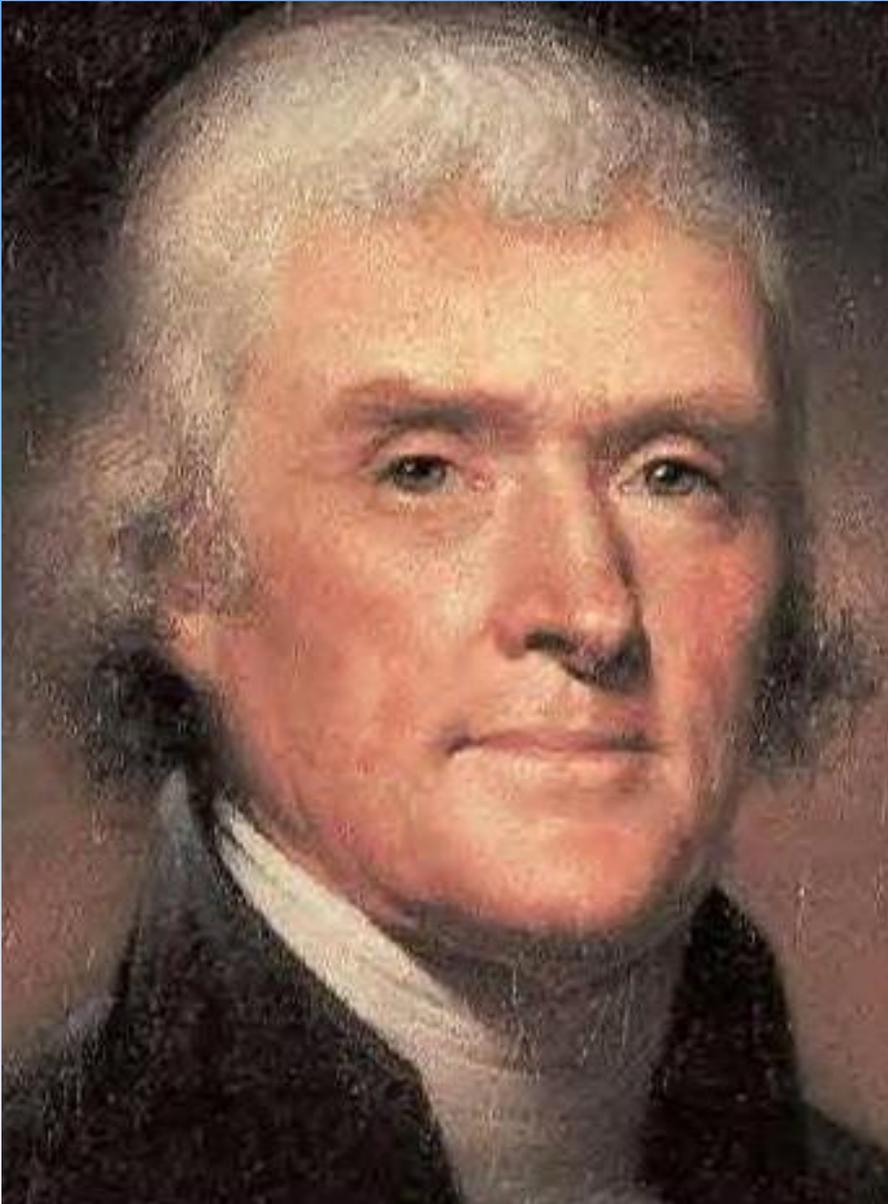

“In the absence of the gold standard, there is no way to protect savings from confiscation through inflation. There is no safe store of value. If there were, the government would have to make its holding illegal, as was done in the case of gold... The financial policy of the welfare state requires that there be no way for the owners of wealth to protect themselves. This is the shabby secret of the welfare statist’s tirades against gold. Deficit spending is simply a scheme for the ‘hidden’ confiscation of wealth. Gold stands in the way of this insidious process. It stands as a protector of property rights.”*

THE RAPING OF AMERICA

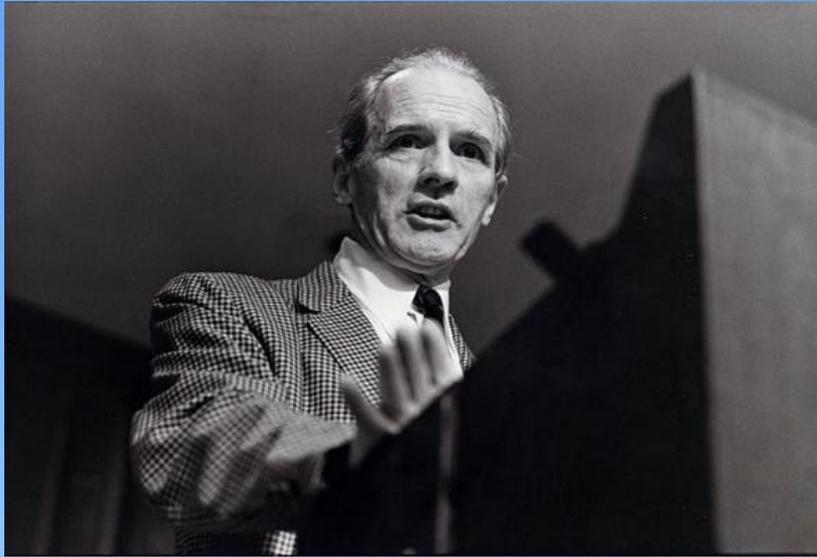

“With his father’s connection with the Astors, young Moses Taylor had no difficulty in finding a place as apprentice in a banking house at the age of 15. Like so many others, he found his greatest opportunities when many other Americans were going bankrupt during an abrupt contraction of credit. During the Panic of 1837, when more than half the business firms in New York failed, he doubled his fortune. In 1855, he became president of City Bank. During the Panic of 1857, the City Bank profited by the failure of many of its competitors. Like George Peabody and Junius Morgan, Taylor seemed to have an ample supply of cash for buying up distressed stocks. He purchased nearly all the stock of Delaware Lackawanna Railroad for \$5 a share. Seven years later, it was selling for \$240 a share. Moses Taylor was now worth fifty million dollars.”

“Since Senator Wright Patman authored his ‘Primer on Money’ in 1964 the powers and activities of banks have compounded the wealth generated for the bankers and their shareholders. This is due to de-regulation, relaxed regulation, and the repeal of the Glass-Steagall Act so as to permit banks to venture outside mere money lending. Banks could now invest in new ventures, invest in the stock and futures markets, in hedge funds, in various collateralized debt obligations, all with the sole legal imperative that they make profit for their shareholders. They had no legal obligation to serve the public interest. While it lasted, this bubble made bank shareholders very wealthy. This tiny group of wealthy individuals uses its wealth to enhance its political power over elected officials. As we see from recent Bail Out events, this power over our government has become dominant. The powers of our government have been captured and used solely to benefit this tiny group, the top 1% of the wealthiest people in our nation.”

“If the Nation can issue a dollar bond it can issue a dollar bill. The element that makes the bond good makes the bill good also. The difference between the bond and the bill is that the bond lets the money broker collect twice the amount of the bond and an additional 20%. Whereas the currency, the honest sort provided by the Constitution pays nobody but those who contribute in some useful way. It is absurd to say our Country can issue bonds and cannot issue currency. Both are promises to pay, but one fattens the usurer and the other helps the People. If the currency issued by the People were no good, then the bonds would be no good, either. THE 1933 BANKRUPTCY OF
THE UNITED STATES

*United States Congressional Record, March 17, 1993
Vol. 33, page H-1303*

*Speaker-Rep. James Traficant, Jr. (Ohio) addressing the House of
Representatives:*

"Mr. Speaker, we are here now in Chapter 11. Members of Congress are official trustees presiding over the greatest reorganization of any Bankrupt entity in world history, the U.S. Government. We are setting forth hopefully, a blueprint for our future. There are some who say it is a coroner's report that will lead to our demise.

It is an established fact that the United States Federal Government has been dissolved by the Emergency Banking Act, March 9, 1933, 48 Stat. 1, Public Law 89-719; declared by President Roosevelt, being bankrupt and insolvent. House Joint Resolution #192, 73rd Congress, in session June 5, 1933: Joint Resolution To Suspend The Gold Standard and Abrogate The Gold Clause dissolved the Sovereign Authority of the United States and the official capacities of all United States Governmental Offices, Officers, and Departments and is further evidence that the United States Federal Government exists today in name only.

The receivers of the United States Bankruptcy are the International Bankers, via the United Nations, the World Bank and the International Monetary Fund. All United States Offices, Officials, and Departments are now operating within a de facto status in name only under Emergency War Powers. With the Constitutional Republican form of Government now dissolved, the receivers of the Bankruptcy have adopted a new form of government for the United States. This new form of government is known as a Democracy, being an established Socialist/Communist order under a new governor for America. This act was instituted and established by transferring and/or placing the Office of the Secretary of Treasury to that of the Governor of the International Monetary Fund. Public Law 94-564, page 8, Section H.R. 13955 reads in part: "The U.S. Secretary of Treasury receives no compensation for representing the United States."

Gold and silver were such a powerful form of money during the founding of the United States of America that the founding fathers declared that only gold or silver coins can be "money" in America. Since gold and silver coinage were heavy and inconvenient for a lot of transactions, they were stored in banks and a claim check was issued as a money substitute. People traded their coupons as money, or "currency."

Currency is not money, but a money substitute. Redeemable currency must promise to pay a dollar equivalent in gold or silver money. Federal Reserve Notes make no such promises, and are not "money." A Federal Reserve Note is a debt obligation of the federal United States government, not "money." The federal United States government and the U.S. Congress were not, and have never been, authorized by the Constitution for the United States of America to issue currency of any kind, but only lawful money - gold and silver coin.

It is essential that we comprehend the distinction between real money and paper money substitute. One cannot get rich by accumulating money substitutes, one can only get deeper into debt. We, the People, no longer have any "money." Most Americans have not been paid any "money" for a very long time, perhaps not in their entire life. Now do you comprehend why you feel broke? Now, do you understand why you are "bankrupt," along with the rest of the country?

Federal Reserve Notes are unsigned checks written on a closed account. Federal Reserve Notes are an inflatable paper system designed to create debt through inflation (devaluation of currency). Whenever there is an increase of the supply of a money substitute in the economy without a corresponding increase in the gold and silver backing, inflation occurs.

Inflation is an invisible form of taxation that irresponsible governments inflict on their citizens. The Federal Reserve Bank who controls the supply and movement of Federal Reserve Notes has everybody fooled. They have access to an unlimited supply of Federal Reserve Notes, paying only for the printing costs of what they need. Federal Reserve Notes are nothing more than promissory notes for U.S. Treasury securities (T-Bills) - a promise to pay the debt to the Federal Reserve Bank.

There is a fundamental difference between "paying" and "discharging" a debt. To pay a debt, you must pay with value or substance (i.e. gold, silver, barter or a commodity). With Federal Reserve Notes, you can only discharge a debt. You cannot pay a debt with a debt currency system. You cannot service a debt with a currency that has no backing in value or substance. No contract in Common law is valid unless it involves an exchange of "good & valuable consideration."

Unpayable debt transfers power and control to the sovereign power structure that has no interest in money, law, equity or justice because they have so much wealth already. Their lust is for power and control. Since the inception of central banking, they have controlled the fates of nations. The Federal Reserve System is based on the Canon law (the internal ecclesiastical law governing the Roman Catholic Church, the Eastern and Oriental Orthodox churches, and the Anglican Communion of churches.) and the principles of sovereignty protected in the Constitution and the Bill of Rights.

In fact, the international bankers used a "Canon Law Trust" as their model, adding stock and naming it a "Joint Stock Trust." The U.S. Congress had passed a law making it illegal for any legal "person" to duplicate a "Joint Stock Trust" in 1873. The Federal Reserve Act was legislated post-facto (to 1870), although post-facto laws are strictly forbidden by the Constitution. [1:9:3]

The Federal Reserve System is a sovereign power structure separate and distinct from the federal United States government. The Federal Reserve is a maritime lender, and/or maritime insurance underwriter to the federal United States operating exclusively under Admiralty/Maritime law. The lender or underwriter bears the risks, and the Maritime law compelling specific performance in paying the interest, or premiums are the same.

Assets of the debtor can also be hypothecated (to pledge something as a security without taking possession of it.) as security by the lender or underwriter. The Federal Reserve Act stipulated that the interest on the debt was to be paid in gold. There was no stipulation in the Federal Reserve Act for ever paying the principal.

Prior to 1913, most Americans owned clear, allodial title to property, free and clear of any liens or mortgages until the Federal Reserve Act (1913) "Hypothecated" all property within the federal United States to the Board of Governors of the Federal Reserve, -in which the Trustees (stockholders) held legal title.

The U.S. citizen (tenant, franchisee) was registered as a "beneficiary" of the trust via his/her birth certificate. In 1933, the federal United States hypothecated all of the present and future properties, assets and labor of their "subjects," the 14th Amendment U.S. citizen, to the Federal Reserve System. In return, the Federal Reserve System agreed to extend the federal United States corporation all the credit "money substitute" it needed. Like any other debtor, the federal United States government had to assign collateral and security to their creditors as a condition of the loan. Since the federal United States didn't have any assets, they assigned the private property of their "economic slaves", the U.S. citizens as collateral against the unpayable federal debt.

They also pledged the unincorporated federal territories, national parks forests, birth certificates, and nonprofit organizations, as collateral against the federal debt. All has already been transferred as payment to the international bankers. Unwittingly, America has returned to its pre-American Revolution feudal roots whereby all land is held by a sovereign and the common people had no rights to hold allodial title to property.

Once again, We, the People are the tenants and sharecroppers renting our own property from a Sovereign in the guise of the Federal Reserve Bank. We, the People have exchanged one master for another. This has been going on for over eighty years without the "informed knowledge" of the American people, without a voice protesting loud enough. Now it's easy to grasp why America is fundamentally bankrupt. Why don't more people own their properties outright?

Why are 90% of Americans mortgaged to the hilt and have little or no assets after all debts and liabilities have been paid? Why does it feel like you are working harder and harder and getting less and less?

*We are reaping what has been sown, and the results of our harvest is a painful bankruptcy, and a foreclosure on American property, precious liberties, and a way of life. Few of our elected representatives in Washington, D.C. have dared to tell the truth. The federal United States is bankrupt. Our children will inherit this unpayable debt, and the tyranny to enforce paying it. America has become completely bankrupt in world leadership, financial credit and its reputation for courage, vision and human rights. This is an undeclared economic war, bankruptcy, and economic slavery of the most corrupt order! **Wake up America! Take back your Country.**"*

Did Representative Jim Traficant discover something so covert and insidious that the Banksters wanted to destroy his character and credibility so as to keep their ruse silent? Consider the following...

Wikipedia (paraphrased): Traficant, a Sheriff in Ohio from 1981 to 1985, made national headlines by refusing to execute foreclosure orders on several unemployed homeowners, many of whom had been left unemployed by the recent closures of steel mills which endeared him to the local population that had derived its wealth from steel. In 1983, Traficant was charged with racketeering for "accepting bribes" and represented himself in the criminal trial arguing that he accepted the bribes only as part of an undercover investigation into corruption.

He was acquitted of the charges, elected to Congress and reelected eight times without serious opposition. However, in 2002, Traficant was indicted on federal corruption charges for taking campaign funds for personal use. Again, he represented himself insisting that the trial was a vendetta against him but was convicted of 10 felony counts including bribery, racketeering, and tax evasion. As a result, the House Ethics Committee expelled him from Congress. He served his sentence while continually being admonished by prison officials and was released in 2009 at age 68. While in prison, it was erroneously stated that Traficant received support from David Duke who urged visitors to donate to Traficant's canteen fund. Duke posted a letter written by Traficant stating that he was targeted by the U.S. Department of Justice for, among other things, defending John Demjanjuk, a retired auto worker and former United States citizen, who gained notoriety after being accused of Holocaust-related war crimes. Demjanjuk's attorney claimed that he was a scapegoat stating that Germany "wants to be acquitted through this trial by finding people from other nations guilty." His conviction for crimes against humanity was later overturned by the Israeli Supreme Court in 1993 on the basis of reasonable doubt. Evidence proved that Demjanjuk was not "Ivan the Terrible" but a guard at camps besides Treblinka. Traficant also claimed that he knew facts about "Waco, Ruby Ridge, Pan Am Flight 103, Jimmy Hoffa and the assassination of President John F. Kennedy," which he may divulge in the future...

I implore you to simply connect the dots.

“The whole profit of the issuance of money has provided the capital of the banking business as it exists today. Starting with nothing whatever of their own, the bankers have got the whole world into their debt irredeemably, by a trick. This money comes into existence every time the banks 'lend' and disappears every time the debt is repaid to them. So that if industry tries to repay, the money of the nation disappears. This is what makes prosperity so 'dangerous' as it destroys money just when it is most needed and precipitates a slump. There is nothing left now for us but to get ever deeper and deeper into debt to the banking system in order to provide the increasing amounts of money the nation requires for its expansion and growth. An honest money system is the only alternative.”

“It is critical to understand that the entire structure of our monetary system can only produce one thing in the long run: DEBT. It doesn't take a lot of ingenuity to figure this scam out. For, nearly every single dollar produced by both the central bank and its regulated commercial banks is loaned at interest. That means every dollar produced is actually the dollar plus a certain percentage of debt based on that dollar.

And since the banking system has the monopoly of the production of the currency, and they loan each dollar out with an immediate debt attached to it, where does the money to pay for the debt come from? It can only come from the banks again. Which means the banking system has to perpetually increase its money supply to temporarily cover the outstanding debt created which, in turn, since that new money is loaned out at interest as well - creates even more debt. The end result of this system is essentially slavery for it is technically impossible for the government and thus the public to ever come out of the self-generating debt.”

“Lenin is said to have declared that the best way to destroy the capitalist system was to debauch the currency. By a continuing process of inflation, governments can confiscate, secretly and unobserved, an important part of the wealth of their citizens. By this method they not only confiscate, but they confiscate arbitrarily; and, while the process impoverishes many, it actually enriches some. The sight of this arbitrary rearrangement of riches strikes not only at security, but at confidence in the equity of the existing distribution of wealth. Those to whom the system brings windfalls, beyond their deserts and even beyond their expectations or desires, become 'profiteers,' who are the object of the hatred of the bourgeoisie, whom the inflationism has impoverished, not less than of the proletariat. As the inflation proceeds and the real value of the currency fluctuates wildly from month to month, all permanent relations between debtors and creditors, which form the ultimate foundation of capitalism, become so utterly disordered as to be almost meaningless; and the process of wealth-getting degenerates into a gamble and a lottery. Lenin was certainly right. There is no subtler, no surer means of overturning the existing basis of society than to debauch the currency. The process engages all the hidden forces of economic law on the side of destruction, and does it in a manner which not one man in a million is able to diagnose.”

*“If the United States government needs to borrow a billion dollars, it issues a bond for this amount, much as a water company does when it wants to raise money for a new pipeline or a new dam. The government delivers this bond for the billion dollars to the Federal Reserve Bank. The Federal Reserve Bank takes the bond and writes an order to the Department of Printing and Engraving to print the billion dollars’ worth of bills. After about two weeks or so, when the bills are printed, the Department of Printing and Engraving ships the bills to the Federal Reserve Bank which then writes a check for about two thousand dollars to pay for printing the billion dollars’ worth of bills. **The Federal Reserve Bank then takes the billion dollars and lends the billion dollars to the United States government and the people of the country pay interest at an exorbitant rate each year on this money, which came out of nothing.** The owners of the Federal Reserve Bank put up nothing for this money. When the United States government goes into debt one dollar, one dollar plus the interest go into the pockets of the owners of the Federal Reserve Bank. This is the most colossal theft ever perpetrated in the history of mankind; so slick, so subtle, and so obfuscated by propaganda from the news media, that the victims are not even aware of what is happening.”*

*“Since 1933, the Reserve has been printing too much money, compared to the declining Gross National Product (GNP). The GNP is the accumulated values of services and goods produced in the country. If the GNP is 4%, then the money produced should only be about 5-6%, thus insuring enough money to keep the goods produced by the GNP in circulation. Additional social services, which are promised during election year rhetoric to gain votes, increase the Federal Budget, so more money is printed. Then the Government will cut the Budget, establish wage and price controls. The extra money in circulation decreases the value of the dollar, and prices go up. Simply put, too much money in circulation causes inflation, **and that is what the Reserve is doing, purposely printing too much money in order to destroy the economy.** On the other hand, if they would stop printing money, our economy would collapse. The Reserve is responsible for setting the interest rate that member banks can borrow from the Reserve, thus controlling the interest rates of the entire country. So, what it boils down to is that the Federal Reserve determines the amount of money needed, which is created by the International Bankers out of nothing. Besides the face value, they charge the government 3¢ to produce each bill. The Federal government pays the Reserve in bonds (which are also printed by the Reserve), and then pay the bonds off at a high rate of interest. That interest will very soon become the largest item in the Federal Budget. William McChesney Martin, a member of the Council on Foreign Relations (CFR), and Chairman of the Federal Reserve (FED) during the 'New Frontier' years of the Kennedy Administration, testified to the Federal Banking Committee, that the value of the dollar was being scientifically brought down each year by 3-3-1/2%, in order to allow wages to go up. The reasoning behind this was that the people were being made to think that they were getting more, when in fact they were actually getting less.”*

THE CONGRESS IS OWNED BY
THE BANKING INDUSTRY”

ANYONE CARE?

On May 14, 2009 Illinois Senator Dick Durbin forthrightly proclaimed:

“We (the Congress) are owned by the banking industry.”

At that time, Senator Durbin was engaged in a battle with the banks to line up 60 votes for bankruptcy reform in light of the foreclosure crisis but met with fierce opposition.

*“The banks, hard to believe in a time when we're facing **a banking crisis that many of the banks created**, are still the most powerful lobby on Capitol Hill. And they frankly own the place.”*

Our government is an illusion – Kabuki Theater.

The Banksters purchased our government with the counterfeit fake money they printed at the Fed.

In reality, our government is a large corporation controlled by a board of directors - the Banksters. Our president, Republican or Democrat, is the CEO.

Members of Congress are “customer service representatives” who have the job of answering to We, the People, in the manner the corporate board dictates.

When newly elected idealistic legislators arrive in Washington, they soon discover that it is not our Constitution which rules the land, nor We, the People. They learn that our country is controlled by the Banksters, those who control the money, those with millions of fake dollars who hire lobbyists to do their bidding. And because their voices are “louder” than our 320 Million voices, they triumph.

Our legislators have been bribed, threatened, oppressed and overpowered by the Banksters who quietly, ominously, and totally control their every move and decision.

I believe that our Legislators are pleading for our help. Unless We, the People, We, the Majority, We, who truly hold the Power let our voices be heard, our Constitution will be soon be obliterated and those who shed their blood to defend this Democracy, will have in deed died in vain.

*“The bankers first bought all the politicians. Next they bought all the major media to promote the illusion that politicians represent our interests. The Office of Homeland Security is designed to control us in order to confiscate our funds for the purpose of paying **the alleged debt** of trillions of dollars. It’s only a matter of time before we will have no more cash, no pensions, no government ‘benefits’. If we resist, there is an Orwellian police state and military police to ensure it.”*

“Laws are no longer made by a rational process of public discussion; they are made by a process of blackmail and intimidation, and they are executed in the same manner..It is the aim of the Bill of Rights to set a limitation upon the (power of the lawmakers) to harry and oppress us to their own private profit. The Fathers, in framing it, did not have powerful minorities in mind; what they sought to hobble was simply the majority. But that is a detail. The important thing is that the Bill of Rights sets forth, in the plainest of plain language, the limits beyond which even legislatures may not go. The Supreme Court, in Marbury v. Madison, decided that it was bound to execute that intent, and for a hundred years that doctrine remained the corner-stone of American constitutional law.”

“If an election were held tomorrow the only parties able to run would be those who could afford to pay for the privilege. We have the same wealthy groups of people fighting each time to represent us; so even before we are given the right to choose, choice itself is taken away. Maybe this is why today so many people are deciding not to vote at all. It isn't because they don't care; they just don't care for what's being offered... What we have now is a rich powerful minority of Politicians, Bankers, Businessmen and combinations of, who in the guise of caretakers are, unconsciously or consciously, cheating the mostly poor and subservient majority. Those at the top of the financial tree rely totally on those below for their position and take us for granted. They grin with confidence even during an election, secure in the knowledge that whoever we might vote for, we will end up with the same system with them ultimately in control. The election process as it is now does not threaten the financial powers that are really running things. While they can see the value in giving us a choice on minor matters, there is no way they are silly enough to risk their privileged position by going along fully with the will of the people. The real rulers act beyond democracy and with no mandate from us, and they will continue to do so as long as we collectively let them.”

In the same bill championed by Senate Majority Whip Dick Durbin of Illinois to spare hundreds of thousands of anguished homeowners from foreclosure through bankruptcy, he stated:

*“The banks that are too big to fail **are saying** that 8 million Americans facing foreclosure are too little to count in this economy.”*

This legislation is exposing the Cabal's larger agenda for if we are so inconsequential, why not hand over the titles to our homes and write off the loss! The Banksters created the money out of thin air, and then had the audacity to charge interest on that fake money, so they had nothing to begin with!

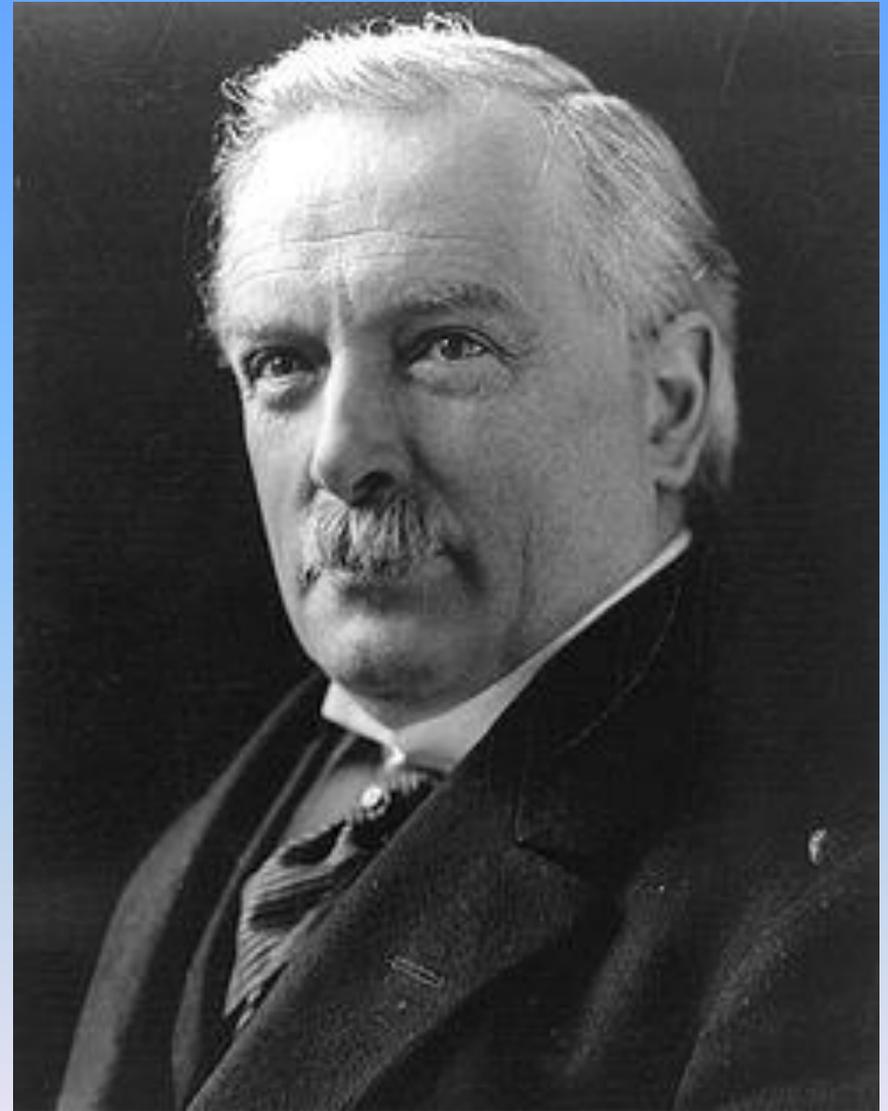

The most important provision of the bankruptcy reform bill which would have granted the authority to a bankruptcy judge to renegotiate mortgages, was opposed by the banks and consequently removed from the bill. However, a bill without such a provision wouldn't be reform at all. The banks stated that the passage of this bill "would encourage bankruptcy filings and spike interest rates" and blackmailed our legislators stating: "If you force us to take more losses, we're going to go out of business."

*The reality is that they **must** go out of business. In order to transform a system which is not functioning to serve the highest good – as it was intended – the system must be dismantled; the core of corruption rooted out and then rebuilt using the one and only litmus test: Does this new system align with America's Mission statement - the Constitution?*

THE HOLY BIBLE

Before the current generation of immoral narcissistic Wall Street CEO's entered the picture, the large investment houses on Wall Street were run by CEO's who were "partners." Any risk taken which resulted in losses was split by the partners, thus discouraging employees from taking great risks for the wrath of the elders would certainly be upon them.

In 1995 that changed. A sharp rise in the DOW industrial average indicated that something fundamental had occurred on Wall Street. The elder CEO's of the investment houses had retired and their companies became publicly traded. What emerged was a new lack of transparency and unaccountability which encouraged deceit and emboldened the now risk-free Banksters to pay themselves colossal wages and outlandish bonuses while simultaneously increasing the risk factor of their corporations.

To deter risk, there must be consequences, but the creation of too-big-to-fail banks opened the door for the crime-syndicate Banksters to further rape and pillage anything in their path.

“I realize that there are some businessmen who feel only they want to be left alone, that Government and politics are none of their affairs, that the balance sheet and profit rate of their own corporation are of more importance than the worldwide balance of power or the Nationwide rate of unemployment.

But I hope it is not rushing the season to recall to you the passage from Dickens' "Christmas Carol" in which Ebenezer Scrooge is terrified by the ghosts of his former partner, Jacob Marley, and Scrooge, appalled by Marley's story of ceaseless wandering, cries out: 'But you were always a good man of business, Jacob.' And the ghost of Marley, his legs bound by a chain of ledger books and cash boxes, replied, 'Business? Mankind was my business. The common welfare was my business. Charity, mercy, forbearance and benevolence were all my business. The dealings of my trade were but a drop of water in the comprehensive ocean of my business!'

Whether we work in the White House or the State House or in a house of industry or commerce, mankind is our business. And if we work in harmony, if we understand the problems of each other and the responsibilities that each of us bears, then surely the business of mankind will prosper. And your children and mine will move ahead in a more secure world, and one in which there is opportunity for them all.”

Chinese Prime Minister Wen Jiabao cited the same two books, circa 1776, by Adam Smith in a rare interview with journalist Fareed Zecharia and how they had inspired him:

“We had one important thought: that socialism can practice market economy. Give full play to the basic role of market forces in allocating resources under the macro-economic guidance and regulation of the government. Ensure that both the visible hand and the invisible hand are given full play.”

Smith’s *“The Wealth of Nations:”* addresses the invisible hand of market forces; and *“The Theory of Moral Sentiments:”* deals with social equity and justice, stressing the importance of the regulatory role of government.

Wen Jiabao agreed with Smith’s ideas stating:

“If most of the wealth in a country is concentrated in the hands of the few, the country can hardly have harmony and stability.”

In 2004, Bankster Hank Paulsen, then CEO of Goldman Sachs, convinced the Securities and Exchange Commission which regulates securities transactions, to ease a rule which required them to maintain a percentage of capital on hand on a basis of 12 to 1 so the Banksters could earn even greater bonuses.

The ever-obliging corrupt SEC allowed the exemption, but only to the largest investment houses: Goldman Sachs, Bear Stearns, Merrill Lynch, Lehman Brothers, and Morgan Stanley. These companies were granted almost unlimited leverage of 40-50 to 1 and with it, their risk multiplied exponentially. Now if losses were incurred, the entire company could be wiped out – which is exactly what happened “by design” to Bear-Stearns at the height of the financial crisis.

This exemption helped to set the stage for the Great Recession which came to a head in September 2008, thus enabling the Banksters to once again, “harvest” the assets of middle-class America.

The Banksters and their minions have “sold their souls to the Devil.” Corporations are ostensibly self-serving entities accountable only to their stockholders and board of directors. They can relocate to any country which serves their primary objective: Profit at any and all costs and leave abject poverty in their wake. This ensures that starving Americans will eventually work for pennies a day just to survive.

*The Banksters speak the praises of Capitalism for everyone but themselves for We, the People subsidize their greed and bail them out – **a perverse form of socialism for the wealthy**. By paying their alleged “losses”, We, the People allow them to maintain their stranglehold on America.*

Capitalism simply cannot work without an underlying moral code for unbridled deregulated capitalism without integrity, ethics or moral conscience brazenly decimates the American dream and replaces it with an American tragedy.

The deceit and greed which accompanies corrupt systems must end. It has become a cancer which is eating away at life, replacing trust, honesty, ethics, morality, integrity and social conscience with distrust, suspicion, blame, finger-pointing, argument, hostility, anger, objection and judgment.

DIVIDE AND CONQUER:

A WEAPON OF MASS
DISTRACTION

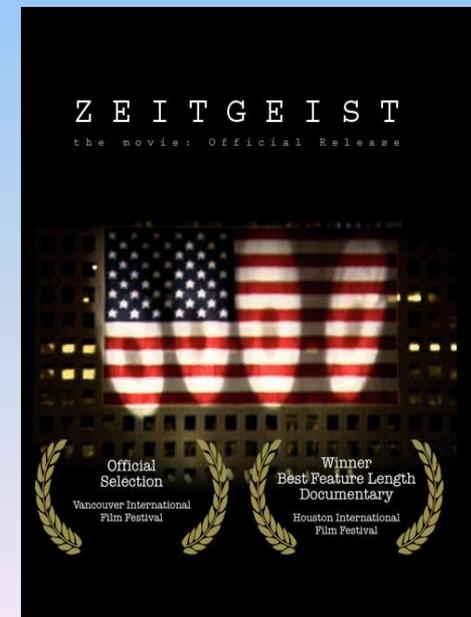

The reason such divisive polarity exists today is because the Banksters instigated it. One of their most effective strategies is “Divide and Conquer.” The Banksters instruct the media they wholly own to focus on the most inane issues which incite powerful emotional responses from people. Next they intensify the reaction by pouring fuel on the fire and gleefully watch as We, the Sheeple react as expected to their contrivances.

The higher purpose of Divide and Conquer is to divert the public’s attention from the Banksters agenda, thus allowing it to quietly unfold under the surface of everyday life until it has gained so much momentum that they achieve their objective with little to no resistance from the flock.

“Human society is and has been controlled and manipulated for millennia through the ancient strategy of “divide and conquer.” Whether we are considering the Roman Empire from 2000 years ago or the now falling American Empire, the tactic is the same - keep the people divided in order to maintain control. This isn’t a notion of conspiracy - it is pattern of social conditioning and human survival as contrived from the social system and the mechanisms inherent in this “social game” we have invented.”

“I’d like to talk about some things that bring us together, things that point out our similarities instead of our differences. ‘Cause that’s all you ever hear about in this country! It’s our differences! That’s all the media and the politicians are ever talking about! The things that separate us; things that make us different from one another. That’s the way the ruling class operates in any society. They try to divide the rest of the people. They keep the lower and the middle classes fighting with each other so that they, the rich, can run off with all the...money! Fairly simple thing! Happens to work! You know anything different! That’s what they’re gonna talk about; race, religion, ethnic and national background, jobs, income, education, social status, sexuality, anything they can do, to keep us fighting with each other, so that they can keep going to the bank!”

— GEORGE CARLIN
(1937–2008)

In an episode of the “Twilight Zone” something strange had occurred in the middle of the night in a small town which awakened the population.

A group gathered in the street and began to question one another as they attempted to identify what had occurred. This questioning escalated into accusations of suspicious behavior which then led to viciousness; similar to the political ads used today which destroy decency...

As the camera panned farther and farther back, two beings observing these interactions commented:

“See? We don’t have to do anything – they’ll destroy themselves.”

PROBLEM

REACTION

SOLUTION

To enact their agenda, the Banksters determine what they want; create a problem which compels the public to react, and then quite magically, they provide the solution!

Rent the movie, “Wag the Dog” and you will see exactly how they manipulate We, the Sheeple.

*The Banksters want We, the People to believe that **we** influence/control what happens in our country, but that ploy is a cleverly contrived illusion. We really have no choices at all. If we believe that ‘what is going on in the world’ is real, they have succeeded for we have fallen into their trap.*

The crises unfolding in our world today have a deep, significant meaning. When a large percentage of the population grovels for survival – can't get a job, unemployment benefits have run out, prices on food, gasoline, home heating fuel, etc. are soaring – the immediate result is a lower standard of living and extermination of the middle class.

The reality of this scenario was seen on “60 Minutes” which aired a segment on the unemployed in Silicon Valley, California where well-educated unemployed citizens were going through garbage cans to search for cans and bottles they could cash in for a meager amount of money.

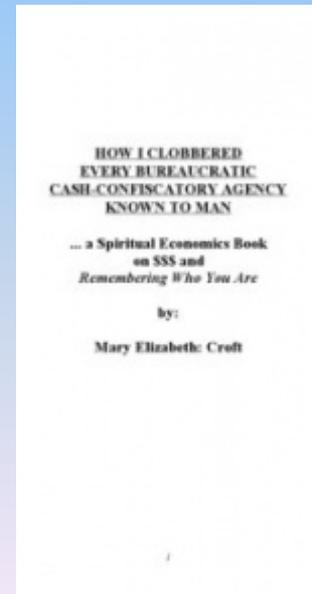

We, the Sheeple, are most manageable when we are distracted and struggling for survival. Furthermore, when the Banksters own everything we need they can easily “starve the beast” – us – until we agree and ultimately “beg” for the solution they propose. Of course, this was their plan all along. Create a problem; anticipate the reaction; offer the solution....

“Utilizing psycho-politics the Banksters control us by:

- 1. Creating events and predetermining their outcome*
- 2. Manufacturing event details and controlling the information dissemination infrastructure*
- 3. Biasing the alarm faculties of common people by the selected dissemination of controlled information*
- 4. Molding knowledge and belief systems through ‘education’*
- 5. Intentionally providing the children of common people with inferior education through public instruction while their children attend premier schools and colleges*
- 6. Controlling the emotions of common people through social rhetoric and religious dogma*
- 7. Enacting rules and regulations that influence common peoples’ decisions based upon rewards and punishments*
- 8. Intimidating the decisions of ordinary people by threatening force, torture, fines, or imprisonment*

TAXES, TAXES, AND MORE
TAXES
ANOTHER CONTROL
MECHANISM

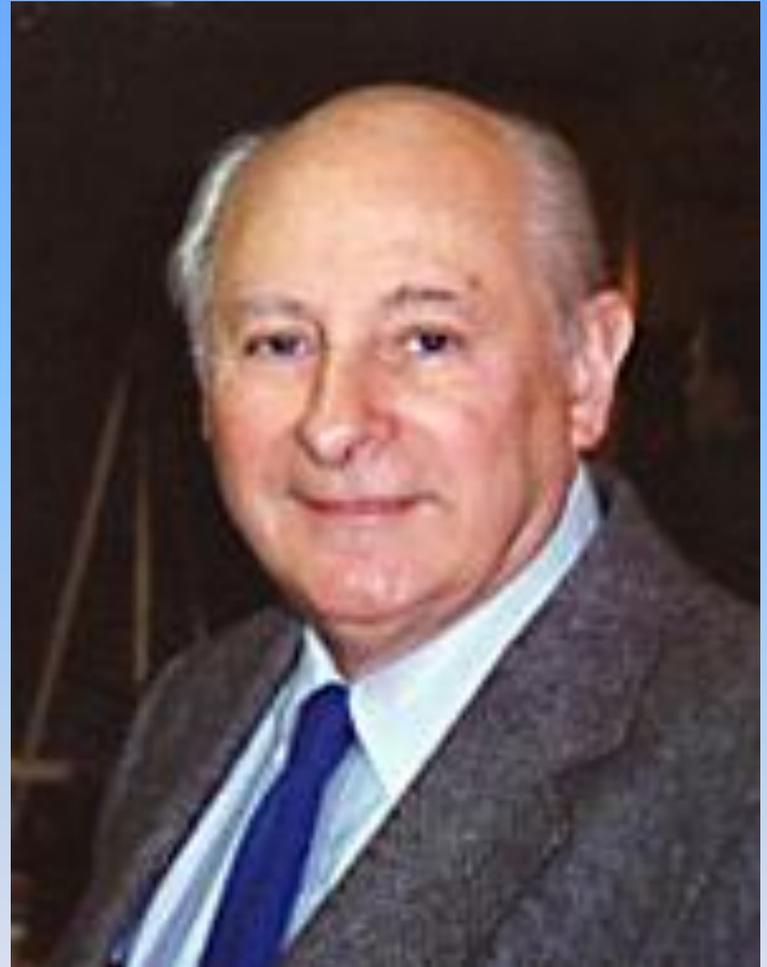

The Bankster-owned government forces us to pay an incredible amount of taxes. When you ponder all of the taxes we are now paying – directly and indirectly: excise and impost: income (federal, state/provincial, and local), sales, GST, Sin taxes (alcohol, tobacco), permits (firearm, building, septic, well), endless banking service fees (credit cards, stocks, bonds, accounts...), endless fines and penalties (traffic, invoice late fees...), travel (flight, hotel, rental), capital gains, corporate income, court costs, licenses (marriage, dog, hunting, fishing, driving, piloting, all professional, all business), insurance (property, life, medical, vehicle, employment, workers compensation), fuel permit, gasoline (about 37%), inheritance, inventory, IRS interest and penalty charges (tax on top of tax), luxury, property, real estate, social security, truckers road usage, registration fees (birth, all professions, all vehicles), school, sports, communication (TV, cable/satellite, internet, fax, endless telephone service fees (universal, federal, state/prov., and local charges, surcharges, minimum usage..) tolls (road, bridge, tunnel), utility (water, gas, electricity, garbage), and the biggest, most insidious of them all: inflation which is tax on the 'money' itself, you will discover that approximately 85% of what you earn pays taxes and interest.

Wasn't this the reason our ancestors fled England? Didn't they want to free themselves of excessive taxation and keep the majority of what they earned through hard work to support their families?

“What is so mind boggling is that all of this is being financed by the American people themselves through their own taxes. PROGRAMMING THE MINDS OF THE SHEEPL

Cunningly, the Banksters have manipulated the “system” and stacked the deck against We, the People in the most devious ways you can imagine to ensure their power.

How have they gotten away with this sinister plot?

*By owning and controlling the media. This guarantees that We, the People, hear only that which they **want** us to hear.*

The Banksters have programmed us to believe what is not true is true and vice versa. They understand that the mind is highly susceptible to programming and manipulation through a constant influx of information.

When the mind is repeatedly fed information over and over, whether by the media, parents, schools, government, advertising, news, billboards, and those “facts” are coupled with emotion, a human being becomes hypnotized; the subconscious mind/ego accepts it as true and incorporates that truth into its belief system.

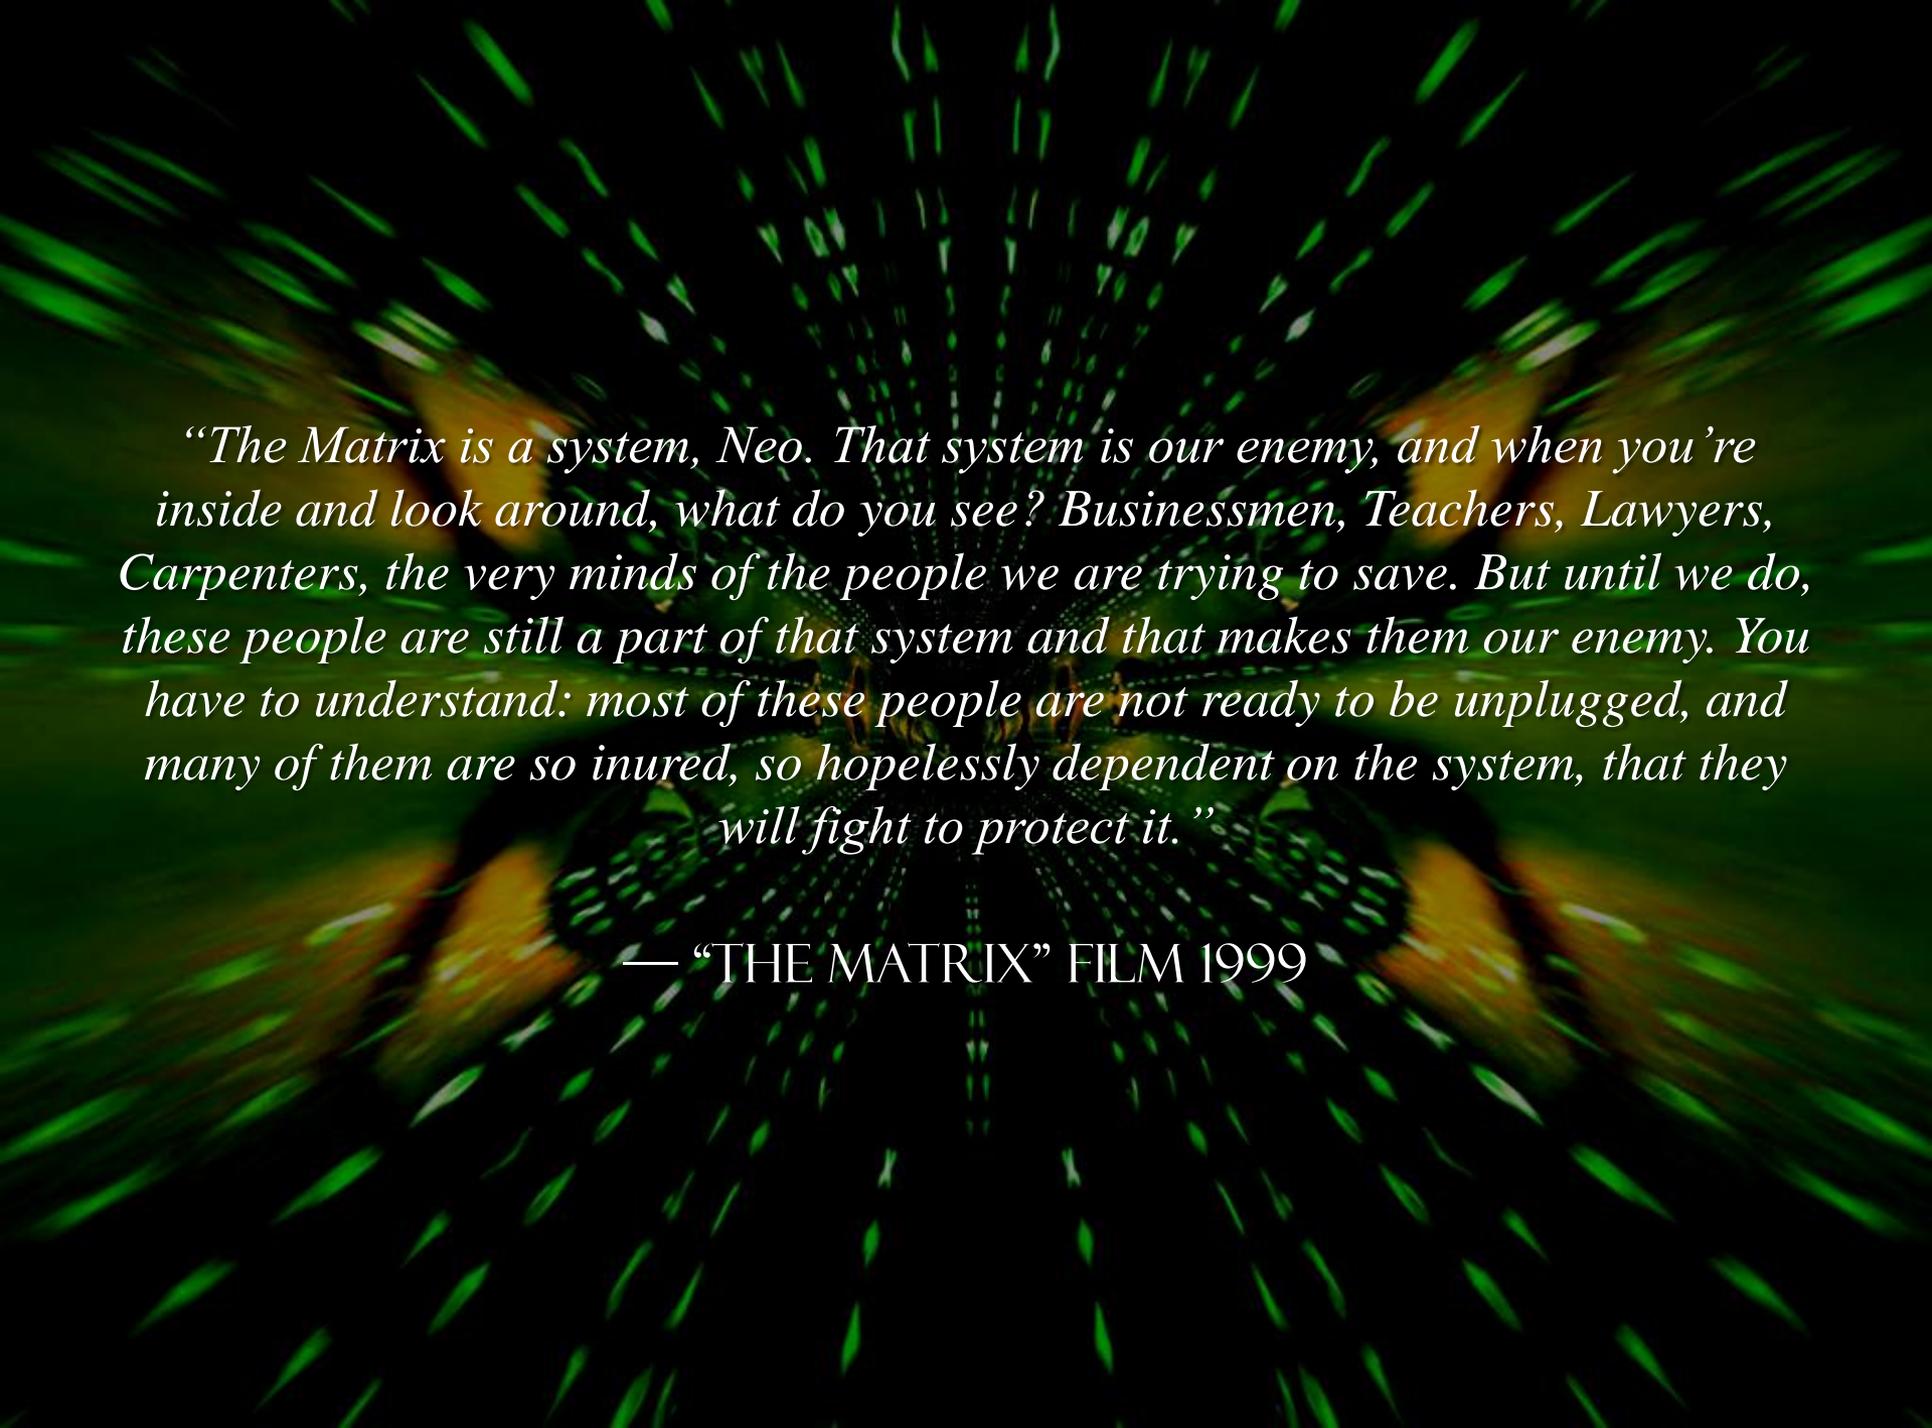

Therefore, when we are exposed to knowledge which deviates from that “programming,” we automatically reject it because it doesn’t fit into our belief system. Hence, while many people actually think they know what’s going on in the world, they are actually responding to their programming.

It features a central perspective tunnel of light green lines that converge towards the center, creating a sense of depth and movement. The rain consists of numerous thin, vertical lines of varying lengths and brightness, creating a dense, textured appearance. The overall color palette is dominated by various shades of green, from dark forest green to bright, almost white-green highlights.

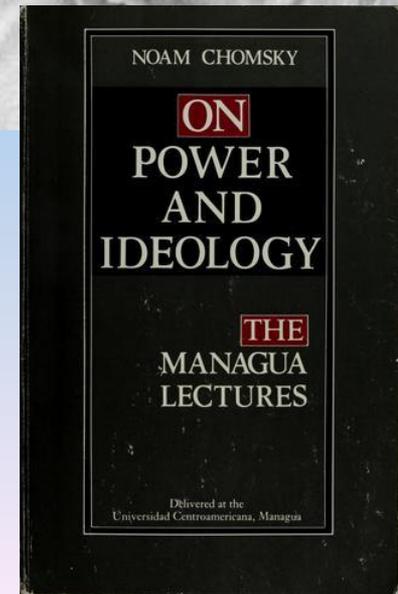

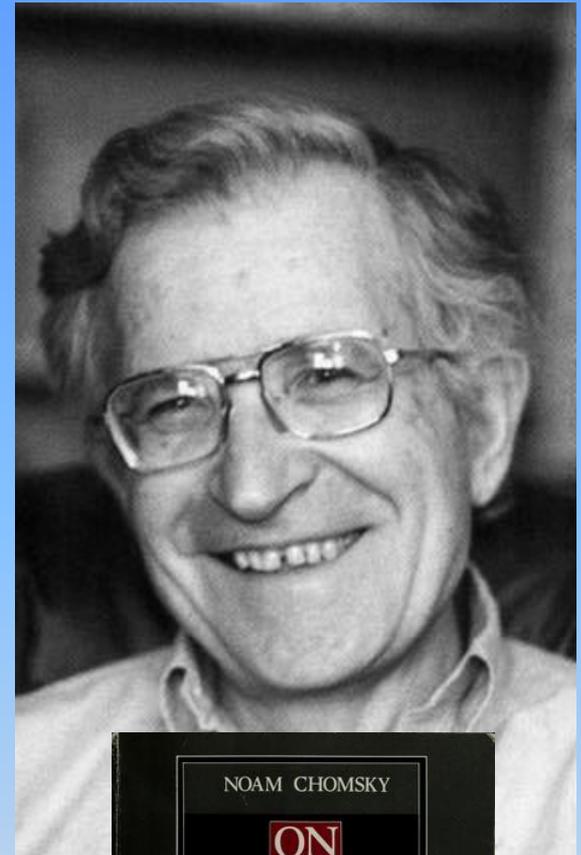

“The Matrix is a system, Neo. That system is our enemy, and when you’re inside and look around, what do you see? Businessmen, Teachers, Lawyers, Carpenters, the very minds of the people we are trying to save. But until we do, these people are still a part of that system and that makes them our enemy. “The nature of psychological compulsion is such that those who act under constraint remain under the impression that they are acting on their own initiative. The victim of mind-Manipulation does not know that he is a victim. To him the walls of his prison are invisible, and he believes himself to be free. That he is not free is apparent only to other people. His servitude is strictly objective.”

*“There is no such thing, at this date of the world's history in America, as an independent press. You know it and I know it. There is not one of you who dares to write your honest opinions, and if you did, you know beforehand that it would never appear in print... Any of you who would be so foolish as to write honest opinions would be out on the streets looking for another job. If I allowed my honest opinions to appear in one issue of my paper, before twenty-four hours my occupation would be gone. **The business of the journalists is to destroy the truth, to lie outright, to pervert, to vilify, to fawn at the feet of mammon, and to sell his country and his race for his daily bread.** You know it and I know it, and what folly is this toasting an independent press? **We are the tools and vassals of rich men behind the scenes. “The iron grip of the ‘London Connection’” (Rothschilds) on the media was exposed in a recent book by Ben J. Bagdikian ‘The Media Monopoly’, described as: ‘A startling report on the 50 corporations that control what America sees, hears, reads’. Bagdikian, who edited the nation’s most influential magazine the Saturday Evening Post until the monopoly suddenly closed it down, reveals the interlocking directorates among the fifty corporations which control the news, but fails to trace them back to the five London banking houses which control them. He mentions that CBS interlocks with the Washington Post, Allied Chemical, Wells Fargo Bank, and others, but does not tell the reader that Brown Brothers Harriman controls CBS, or that the Eugene Meyer family (Lazard Freres) controls Allied Chemical and the Washington Post, and Kuhn Loeb Co., the Wells Fargo Bank. He shows the New York Times interlocked with Morgan Guaranty Trust, American Express, First Boston Corporation and others, but does not show how the banking interlocks. He does not mention the Federal Reserve System in his entire book, which is conspicuous by its absence. Bagdikian documents that the media monopoly is steadily closing down more newspapers and magazines. Washington D.C., with one paper, The Post, is unique among world capitals. London has eleven daily newspapers, Paris fourteen, Rome eighteen, Tokyo seventeen, and Moscow nine. He cites a study from the 1982 World Press Encyclopedia that the United States is at the bottom of industrial nations in the number of daily newspapers sold per 1,000 population. Sweden leads the list with 572, the United States is at the bottom with 287. There is universal distrust of the media by Americans, because of their notorious monopoly and bias. The media unanimously urge higher taxes on working people, more government spending, a welfare state with totalitarian powers, close relations with Russia, and a rabid denunciation of anyone who opposes Communism. This is the program of ‘the London Connection.’ It flaunts a maniacal racism, and has as its motto the dictum of its high priestess, Susan Sontag, that “The white race is the cancer of history.” Everyone should be against cancer. The media monopoly deals with its opponents in one of two ways; either frontal assault of libel which the average person cannot afford to litigate, or an iron curtain of silence, the standard treatment for any work which exposes its clandestine activities.”

THE NATURE OF MONEY AND OUR MONETARY SYSTEM,
2004

“Between 1969 and 1986 nine multinational conglomerates bought over 200 newspapers and magazines with a total circulation of 46 million at the time of purchase (excluding publications resold to each other). Some of these (Atlantic Richfield, Lonrho, Trafalgar House, Reed, Hollinger) were primarily engaged in activities outside publishing and their involvement in Fleet Street was sometimes short-lived. Others (the conglomerates controlled by Murdoch, Maxwell, the Cowdrays, and Stevens) were originally printing or publishing companies which expanded into other areas like banking and transport. There is now no popular national newspaper in Britain which does not have, or is not controlled by, a major interest outside the media. This integration of the press into finance and industry created conflicts of interest. It gave rise to no-go areas where newspapers were sometimes reluctant to investigate for fear of stepping on corporate toes. As The Times, then owned by the Thomson Organisation, candidly told the last Royal Commission on the Press, 'Coverage of Thomson Organisation activities in Thomson newspapers tends, certainly, to be drily factual.' It also resulted sometimes in newspapers editorial columns being misused to promote the commercial interests of other companies in the same group. No reasonable person would expect a so-called 'free press' to operate in this biased, self-serving way. After reading this sort of thing on their front own page you might be less inclined to believe what was printed inside.”

They found it was necessary to purchase the control of only 25 of the greatest papers. An agreement was reached; the policy of the papers was bought, to be paid for by the month; an editor was furnished for each paper to properly supervise and edit information regarding the questions of preparedness, militarism, financial policies, and other things of national and international nature considered vital to the interests of the purchasers.”

WAR:
DEBT GENERATOR &
CONTROL MECHANISM

“War is just a racket. A racket is best described, I believe, as something that is not what it seems to the majority of people. Only a small inside group knows what it is about. It is conducted for the benefit of the very few at the expense of the masses. The trouble with America is that when the dollar only earns 6 percent over here, then it gets restless and goes overseas to get 100 percent. Then the flag follows the dollar and the soldiers follow the flag.”

“Wars are major debt creators, which is what the Global Elite create to collect more interest. This is the true purpose of war and yet the people buy the ruse of either a humanitarianism cause or worse, ‘making the world safe for democracy’. The players are manipulated by the Global Elite/bankers who play both sides. The reason the Global Elite want democracy is because that is the only form of government which they can manipulate and control under Law Merchants. Every democracy the world has known ends in an economic downward spiral. Governments which operate under tyrannical dictators or archaic monarchies don’t work either, however, when a regime is forced to change to a democracy it dies economically. The Global Elite/Bankers do not want democracy for our benefit; it is for theirs.”

It both emboldens the blood, just as it narrows the mind. And when the drums of war have reached a fever pitch and the blood boils with hate and the mind has closed, the leader will have no need in seizing the rights of the citizenry. Rather, the citizenry, infused with fear and blinded by patriotism, will offer up all.”

“Naturally, the common people don’t want war, but after all, it is the leaders of the country who determine the policy and it is always a simple matter to drag the people along, whether it is a democracy, or a fascist dictatorship, or a parliament, or a communist dictatorship. “All money is created in the form of debt to the privately owned banking cartel. Imagine if you could create money out of thin air. Imagine you have the credit cards of all the nations in your pocket. Your first impulse is to lend money to your nominees so they can buy most of the world's real wealth for you. Your second impulse is to establish a totalitarian system (‘world government’ globalization) to prevent any nation from challenging this system or defaulting on their ‘debt’ to you. To make them accept ‘world government,’ you need to weaken them by having them fight among themselves, run up huge debts for armaments (which you sell them), kill off the cream of their manhood, and become demoralized and decadent. You accomplish this through your ownership of politicians and the press and your control of MI-6, CIA who will carry out assassinations and acts of terror. This is the real history of the last 300 years. “

The apex of the systems was to be the Bank for International Settlements (BIS) in Basel, Switzerland; a private bank owned and controlled by the world's central banks which were themselves private corporations. It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during those years. “For more than one hundred years, since the days when John D. Rockefeller Sr. used every devious strategy he could devise to create a gigantic oil monopoly, enough books have been written about the Rockefellers to fill a library. I have read many of them. And to my knowledge, not one has dared to reveal the most vital part of the Rockefeller story: that the Rockefellers and their allies have, for at least fifty years, been carefully following a plan to use their economic power to gain political control of first America, and then the rest of the world. Do I mean conspiracy? Yes I do. I am convinced there is such a plot, international in scope, generations old in planning, and incredibly evil in intent.”

“I spent 33 years and four months in active military service and during that period I spent most of my time as a high class muscle man for Big Business, for Wall Street and the bankers. In short, I was a racketeer, a gangster for capitalism. I helped make Mexico and especially Tampico safe for American oil interests in 1914. I helped make Haiti and Cuba a decent place for the National City Bank boys to collect revenues in. I helped in the raping of half a dozen Central American republics for the benefit of Wall Street. I helped purify Nicaragua for the International Banking House of Brown Brothers in 1902-1912. I brought light to the Dominican Republic for the American sugar interests in 1916. I helped make Honduras right for the American fruit companies in 1903. In China in 1927 I helped see to it that Standard Oil went on its way unmolested. Looking back on it, I might have given Al Capone a few hints. The best he could do was to operate his racket in three districts. I operated on three continents.”

BOOK OF LIVING AND DYING

We, the People, have a short window of opportunity to reclaim our country, reestablish our middle-class and assist the least fortunate among us out of the prisons of poverty they have been held captive in.

Will you heed this call and join the growing number of Americans who are “mad as hell and will not take it anymore” so we can live as a civilized society from a foundation of trust, honesty, integrity, ethics, and morals, as life was meant to be lived?

We must reform the systems in our country which no longer serve the highest good which our Constitution intended. The corrupt infrastructure within our country are broken and need reform. They promote immorality and are the systemic cause of the evil which flows most predominantly through New York City and Washington.

“We hold these truths to be self evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness.

That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed. That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to affect their Safety and Happiness.”

“When the accumulation of wealth is no longer of high social importance, there will be great changes in the code of morals. We shall be able to rid ourselves of many of the pseudo-moral principles which have hag-ridden us for two hundred years, by which we have exalted some of the most distasteful of human qualities into the position of the highest virtues. We shall be able to afford to dare to assess the money-motive at its true value. The love of money as a possession — as distinguished from the love of money as a means to the enjoyments and realities of life — will be recognised for what it is, a somewhat disgusting morbidity, one of those semi-criminal, semi-pathological propensities which one hands over with a shudder to the specialists in mental disease ... But beware! The time for all this is not yet. For at least another hundred years we must pretend to ourselves and to everyone that fair is foul and foul is fair; for foul is useful and fair is not. Avarice and usury and precaution must be our gods for a little longer still. For only they can lead us out of the tunnel of economic necessity into daylight.”

BRITISH ECONOMIST WHOSE IDEAS HAVE PROFOUNDLY AFFECTED THE ECONOMIC POLICIES OF GOVERNMENTS – QUOTE FROM “KEYNES AND THE ETHICS OF CAPITALISM” BY ROBERT SKIDELSY

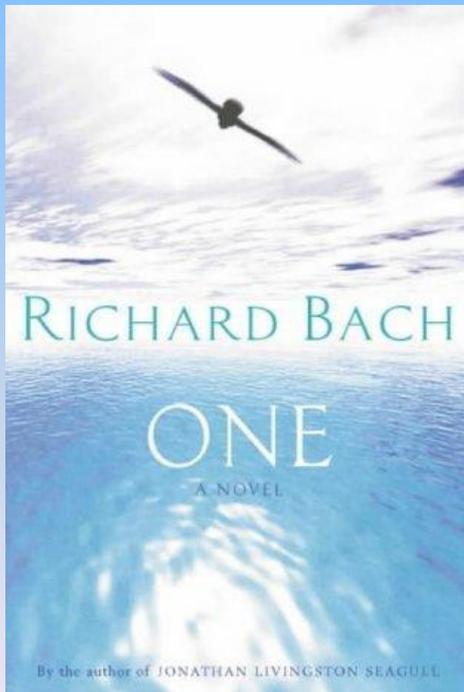

“Evolution made civilization steward of this planet. One hundred thousand years later, the steward stood before evolution, not healer, but parasite. A gifted society in so many ways, trapped at last by greed and lack of vision. It ravaged the forests into desert, consumed the soul of the land in mine-pits and waste, smothered its air and its oceans, sterilized the earth with radiation and poisons. A million million chances it had to change, but it would not. From the ground it dug luxury for a few, jobs for the rest, and graves for the children of all. In the end, the children didn’t agree, but the children had come too late.

HOW COULD A CIVILIZATION HAVE BEEN SO BLIND?”

— ONE

By Richard Bach

Are you ready to remove the blinders?

Until We, the people, We, for whom our forefathers shed blood in the name of freedom, We, who hold the majority, take action and utilize the power of our voices; until we demand that our Constitution prevails, we will continue to be pawns in a game we will inevitably lose.

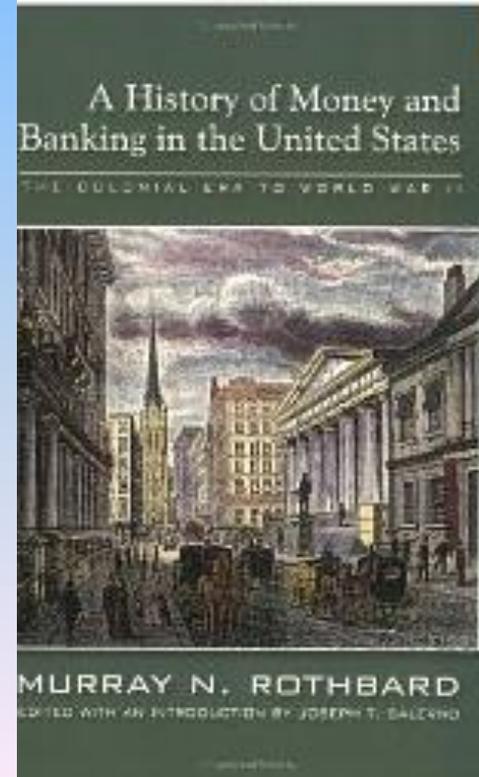

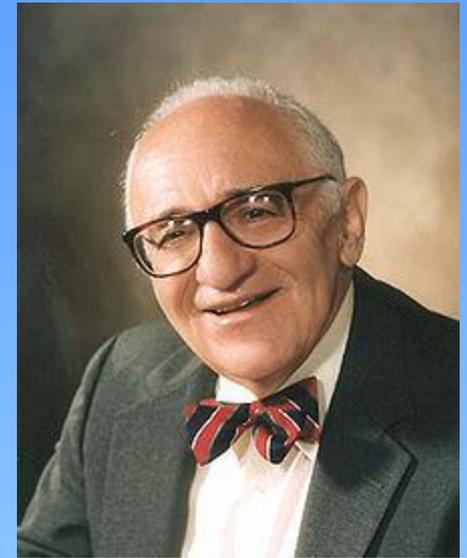

To stop the enemy we must awaken our brothers and sisters who have been lulled to sleep, for we, the people are the only obstacle which could defeat the Banksters plan.

THE BANKSTERS
ACHILLES HEEL

“The ruling class, being small and largely specialized, is motivated to think about its economic interests twenty-four hours a day... They are constantly at work trying to preserve and expand their privileges. The ruling class confronts one serious and ongoing problem: how to persuade the productive majority, whose tribute or taxes it consumes, that its laws, regulations, and policies are beneficial; that is, that they coincide with ‘the public interest’ or are designed to promote ‘the common good’ or to optimize ‘social welfare.’ Given its minority status, failure to solve this problem exposes the political class to serious consequences. Even passive resistance by a substantial part of the producers in the form of mass tax resistance, renders the income of the political class and, therefore, its continued existence extremely precarious. More ominously, attempts to suppress such resistance may cause it to spread and intensify and eventually boil over into an active revolution whose likely result is the forcible ousting of the minority exploiting class from its position of political power. Here is where the intellectuals come in. It is the task [of the intellectuals] to convince the public to actively submit to State rule because it is beneficial to do so, or at least to passively endure the State's depredations because the alternative is anarchy and chaos. In return for fabricating an ideological cover for its exploitation of the masses of subjects or taxpayers, these ‘court intellectuals’ are rewarded with the power, wealth, and prestige of a junior partnership in the ruling elite. Whereas in pre-industrial times these apologists for State rule were associated with the clergy, in modern times—at least since the Progressive Era in the U.S. - they have been drawn increasingly from the academy. Politicians, bureaucrats, and those whom they subsidize and privilege within the economy routinely trumpet lofty ideological motives for their actions in order to conceal from the exploited and plundered citizenry their true motive of economic gain. In today's world, these motives are expressed in the rhetoric of ‘social democracy’ in Europe and that of modern-or welfare-state-liberalism in the United States. In the past, ruling oligarchies have appealed to the ideologies of royal absolutism, Marxism, Progressivism, Fascism, National Socialism, New Deal liberalism, and so on to camouflage their economic goals in advocating a continual aggrandizement of State power.”

“‘Democracy,’ in the United States rhetoric refers to a system of governance in which elite elements based in the business community control the state by virtue of their dominance of the private society while the population observes quietly. So understood, democracy is a system of elite decision and public ratification, as in the United States itself. Correspondingly, popular involvement in the formation of public policy is considered a serious threat. It is not a step towards democracy; rather it constitutes a ‘crisis of democracy’ that must be overcome.”

— GENE SHARP

FROM DICTATORSHIP TO DEMOCRACY 1993

CHAPTER 1

“No Congress, no President has been strong enough to stand up to the foreign-controlled Federal Reserve Bank. Yet there is a catch - one that President Kennedy recognized before he was slain - the original deal in 1913 creating the Federal Reserve Bank had a simple backout clause. The investors loaned the United States Government \$1 billion. And the backout clause allows the United States to buy out the system for that \$1 billion. If the Federal Reserve Bank were demolished and the Congress of the United States took control of the currency, as required in the Constitution, the National Debt would virtually end overnight, and the need for more taxes and even the income tax, itself. Thomas Jefferson was concise in his early warning to the American nation, ‘If the American people ever allow private banks to control the issuance of their currency, first by inflation and then by deflation, the banks and corporations that will grow up around them will deprive the people of all their property until their children will wake up homeless on the continent their fathers conquered.’”

— HARRY V. MARTIN
FREE AMERICA 1995

We, the People are being swindled, deceived and manipulated in every direction...all by design... Unless the now corrupt vital infrastructures in America are rebuilt in their entirety, the former all powerful America will soon be nothing more than a dream. Are you ready to defend what you have taken for granted?

This planet does not belong to the very wealthy who have stolen it with fake money; it belongs to the Human race.

So I ask:

What are YOU going to do about it?

To learn how this deception was perpetrated for so long right under our noses, let's now explore the next section: History Through the Prism of Money, for if we simply follow the money we find that history tells us an altogether different tale...

In this next section you will plainly see that the Banksters have manipulated our monetary system through War, Debt, Boom and Bust for over 200 years in order to control We, the People, for our vast numbers are far easier to control when we are in fear and survival-mode!

We the People

of the United States, in order to form a more perfect Union, establish Justice, insure domestic Tranquillity, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do hereby establish the Constitution for the United States of America.
